PART I

S.O. **Secretariat.**

No. 601-606—C. B. 84-20-1, DATED 27TH OCTOBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. 556-9—C. B. 283-19-13, dated 21st October 1920, sanctioning the appointment of Mr. C. D. Dove Wilson as Secretary to Government in the Public Works, Electrical and Railway Departments.

Order No. 601-606—C. B. 84-20-1, dated, (Camp) Mysore, 27th October 1920.

The following arrangements for the separation of the Secretariat work of the Railway Department from the Agent, Mysore Railways and of the Public Works and Electrical Departments from the Chief Engineer are ordered :—

(1) The new combined Secretariat will be located in the Public Offices, Bangalore, accommodation being provided therefor by the Chief Engineer according to instructions contained in the Office Memorandum separately issued.

(2) As regards the Railway Department the Secretariat is already treated as a separate unit in the matter of files and records and the necessary clerical and menial establishment is also separately allotted to it. The Agent is requested to transfer the records together with a list and also the establishment as per statement appended hereto to the new Secretariat immediately.

(3) The existing arrangements will continue so far as the powers of the Agent are concerned. Pending further orders all other matters should be submitted to Government in the new Secretariat.

(4) Similarly the Chief Engineer is requested to transfer all the records relating to the Secretariat work of the Electrical Department together with the establishment of one clerk on Rs. 100 and another on Rs. 45 to the new Secretariat.

(5) As regards the Public Works Department the Chief Engineer states that no distinction of staff and no separation of work is maintained between the Chief Engineer and Public Works Secretary. He will, however, be immediately relieved of all Secretariat duties in the Public Works Department by Mr. Dove Wilson.

(6) The records pertaining to the Public Works Secretariat should be selected and transferred to the new Secretariat and a part of the staff placed at the disposal of Mr. Dove Wilson as early as practicable. Further specification of details about staff, establishment, and powers of the Chief Engineer will be made in the re-organization of the Public Works Department.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Secretary to Government, Public Works, Electrical and Railway Departments.
The Chief Engineer.
The Agent, Mysore Railways.
The Financial Secretary to Government.
The Comptroller, Mysore Government.
The Chief Engineer and Joint Secretary, P.W.D., Cauvery Valley Irrigation.

S.O.

No. P.B. 5-8 / P.P. 76-20-1

GOVERNMENT OF H. H. THE MAHARAJA OF MYSORE,
GENERAL AND REVENUE SECRETARIAT,

Dated, Camp Mysore, 19th October 1920.

OFFICIAL MEMORANDUM.

The marginally noted officers will be bracketed together in the Precedence List, annexed to Government Order No. G. 7209-598—P.P. 73-19-1, dated the 19th September 1919, as of equal precedence, the officers concerned taking precedence *inter se* according to their personal seniority in the service. According to this rule the precedence of the three officers now occupying these places will be as shown below :—

1. Revenue Commissioner.
2. Inspector-General of Police in Mysore.
3. Excise Commissioner in Mysore.

(1) Mr. K. R. Srinivasa Iyengar, Revenue Commissioner in Mysore.
(2) Mr. K. Chandy, Excise Commissioner in Mysore.
(3) Mr. A. Subrahmania Iyer, Offg. Inspector-General of Police in Mysore.

By Order,
C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Huzur Secretary to His Highness the Maharaja.
The Revenue Commissioner in Mysore.
The Excise Commissioner in Mysore.
The Inspector-General of Police in Mysore.

Exd.—M.V.

S.O. **Breeding of good Milch Cows.**

No. G. 8301-7—Mily. 249-19, dated 21st October 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. G. 20313-20—Mily. 249-14-4, dated 2nd March 1920, sanctioning the reconstitution of the Milch Cattle Improvement Committee appointed in Government Order No. R. 5610-6—Agri. 106-10-2, dated 4th April 1911, for carrying out the scheme relating to the improvement of the breed of milch cattle in the State.

2. Letter No. 6812—C. 803, dated 31st March 1920, from the Director of Agriculture, suggesting a further revision of the Committee.

Order No. G. 8301-7—Mily. 249-19, dated 21st October 1920.

Government consider that the expert on Animal Husbandry may be appropriately entrusted with the experiment of breeding good milch cows and accordingly direct that the Committee referred to in the order read above be dissolved and the scheme transferred to the charge of Mr. Davison, Live Stock Expert, under the guidance of the Director of Agriculture.

Mr. Davison may select a suitable place for locating the Dairy if he considers the present site not well suited for the breeding of cattle.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Members of the Committee.
The Chief Commandant, Mysore State Troops.
The Comptroller to Government (through Financial Secretariat)
The Director of Agriculture in Mysore.

Exd. M. V.

Re Certain existing defects in Infantry Regiments and suggestions for improvements.

No. G. 8783-93—MILY. 398-18-10, DATED 30TH OCTOBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. G. 26505-6—Mily. 398-18-1, dated 26th May 1919, deputing Major (now Lt.-Col.) B. Chamaraj Urs to study the extent and nature of defects in Infantry Regiments and suggest improvements.

2. Government Order No. G. 638-9—Mily. 398-18-6, dated 10th July 1919, placing Commandant, Sheik Mustapha of the Mysore Horse on the above special duty on the appointment of Lt.-Col. Chamaraj Urs as Chief Commandant, Mysore State Troops.

3. Letter No. 875, dated the 24th July 1919, from the Chief Commandant, forwarding the reports on the inspection by Lt.-Col. Chamaraj Urs of the Infantry Detachments at Shimoga, Hassan and Mysore.

4. Letter No. 5045, dated the 10th November 1919, from the Chief Commandant, forwarding the consolidated report by Commandant Sheik Mustapha on his inspection of the three Infantry Regiments and their detachments.

Order No. G. 8783-93—Mily. 398-18-10, dated 30th October 1920.

1. The reports of Lt.-Col. Chamaraj Urs and Commandant Sheik Mustapha disclose that the chief grievances of the sepoys are three-fold, *viz* :—

(i) That their hutting accommodation is insufficient and the arrangements for lighting, water supply and conservancy are inadequate,

(ii) That there is usually great delay in the disbursement of the travelling allowances due to them for journeys connected with remittance of treasure and also in recouping to them the amounts advanced for cart hire on such occasions, and

(iii) That the differential treatment as compared, for example, with the Police Department in respect of (*a*) the charge levied for Khaki dress and (*b*) the denial of Malnad Allowance and of batta when on remittance duty, places them at great disadvantage and creates hardship.

2. Both the officers further suggest that in the interests of Military efficiency as well as in the interests of the sepoys, the taluk guards should be relieved twice or thrice in a year instead of annually.

3. Government have carefully considered the proposals and are pleased to order as follows :—

4. As regards the question of housing, it is reported that, with the exception of the newly constructed lines at Hassan, Tumkur, Kolar and Bangalore, all the Infantry huts are in a dilapidated condition and require immediate attention. The Chief Engineer will be requested to arrange for urgent temporary improvements needed to these huts with a view to improve their sanitation, ventilation, drainage, etc., till such time as the question of new accommodation is disposed of. The Chief Commandant is requested to furnish to the Chief Engineer as early as possible a list showing the strength of sepoys, the accommodation required and the order in which the new works should be taken up so as to enable the Public Works Department to prepare estimates and to arrange for the provision of necessary funds in the budgets of future years.

No. G. 7170-230—San. 26-20-11, dated 1st October 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Rule 12 of the Rules relating to the registration of vital statistics issued with Government Order No. 6664-714—San. 71-15-3, dated 10th March 1916, directing the preparation every quarter, by the District Sanitary Officer, of a short memorandum reviewing the vital statistics of the districts for the quarter.

2. Letter No. P. 33, dated 13th April 1920, from the Officiating Sanitary Commissioner in Mysore, stating that, as has been represented by the District Health Officer, Shimoga District, a District Health Officer has no facilities to prepare and review the quarterly returns of vital statistics and suggesting, therefore, that the rule read above be amended so that the entire procedure connected with the quarterly returns might receive attention in the Deputy Commissioner's Office in common with other matters relating to vital statistics.

3. The marginally noted communications from the Presidents of District Boards furnishing their views in regard to the amendment of the rule as suggested by the Officiating Sanitary Commissioner.

1 From the President, District Board, Tumkur, No L. F. G. C. 1201, dated 28th May 1920.
2. Do Mysore No. D2. Dis. 710—L. B., dated 24th June 1920
3. Do Bangalore, No. D2 Dis 201, dated 29th June 1920.
4. Do Chitaldrug, No. C 1367—L. F., dated 3th July 1920
5. Do Kadur, No D2. Dis 2—L. B., dated 4th July 1920.
6. Do Kolar, No. L. F. H. C. D2. Dis 258, dated 7th July 20.
7. Do Shimoga, No. D2. Dis. 8—L. B., dated 17th July 1920.
8. Do Hassan, No. C. 12—L. F., dated, 29th July 1920.

Order No. G. 7170-230—San. 26-20-11, dated 1st October 1920.

The majority of the Presidents of the District Boards, who were consulted in the matter, have stated that, with his professional training coupled with the experience gained by him during his tours and inspections, the District Health Officer is in a better position to bring out prominently the features of the public health in the district and suggest remedial measures necessary and all of them are unanimously of opinion that the rule in question needs no modification.

2. Government observe that the compilation and review of vital statistics is one of the important duties of a Health Officer and that there should be no difficulty in having the same prepared, since the Health Officer is Assistant to Deputy Commissioner in sanitary matters.

3. Government accordingly direct that the Health Officers whether they are part time or whole-time officers should attend to this work and the Deputy Commissioners may, if necessary, place one of the clerks engaged in this work in their office under the orders of the Health Officers for the purpose. The Health Officers should not only review the quarterly returns, but should also prepare annual returns and review thereon.

4. Copies of these quarterly and annual reviews of the District Health Officers with the remarks of the District Boards, if any, should be invariably submitted to Government through the Sanitary Commissioner in Mysore as early as possible after the District Board meeting, before which the returns are placed.

5. Rule 12 of the Rules issued with Government Order dated 10th March 1916 read above will be modified so as to read as follows :—

"It shall be the duty of the District Health Officer to prepare every quarter and at the end of each official year, a short memorandum reviewing the vital statistics of the district for the quarter and the official year, and on approval thereof by the Deputy Commissioner to place it before the District Board. Copies of these reviews with the statistics should be submitted to Government through the Sanitary Commissioner in Mysore with the remarks of the District Board, if any, as early as possible after the meeting of the District Board at which they are placed. The professional training of the District Health Officer ought to enable him to present the statistics in a manner so as to bring out prominently the outstanding features of the state of public health in the district and to effectively indicate the practical measures, if any, that he might wish to bring forward for the consideration of the Board."

No. G. 7170-230—San. 26-20-11, dated 1st October 1920.

6. The Deputy Commissioners and Presidents of District Boards are requested to strictly enforce the above rule and bring to the notice of Government any remissness on the part of Health Officers in this direction.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Sanitary Commissioner in Mysore.
The Deputy Commissioners of Districts.
The Presidents of City Municipal Councils of Bangalore and Mysore.
The President, Sanitary Board, Kolar Gold Fields.
The Heads of Departments.
The Secretary, Education Committee of the Economic Conference.
The Secretary, Industries and Commerce.
The Superintendent, Government Printing.

S.O. **Budget Estimates**

No. G. 8455-60—San. 36-20-1, dated 25th October 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

The following extract from the Proceedings of the Malnad Improvement Central Committee Meeting held on 10th July 1920.

"The President, seeing the disparity in the information furnished by each Deputy Commissioner under various heads, suggested the desirability of prescribing a uniform budget form on the lines of the Municipal Budget form to facilitate Deputy Commissioners embodying all the necessary information under each head."

Order No. G. 8455-60—San. 36-20-1, dated 25th October 1920.

Government are pleased to direct that the budget estimates of the expenditure of the Malnad Improvement Committee of each district be prepared in future in the form hereto appended and submitted annually to Government not later than the 30th April of the year preceding that to which they relate.

2. The Superintendent, Government Printing, is requested to cause the form to be printed and supplied to the Deputy Commissioners of the Districts of Kadur, Hassan and Shimoga and the Secretary to the Malnad Improvement Central Committee on requisition made by them.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Secretary, Malnad Improvement Central Committee.
The Deputy Commissioners and Chairmen, Malnad Improvement Committees of Shimoga, Kadur and Hassan Districts.
The Comptroller to Government.
The Superintendent, Government Printing.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

The Report on Sanitation in Mysore for the Calendar Year 1919, received with the Officiating Sanitary Commissioner's letter No. P. 49, dated 14th August 1920.

Order No. G. 8479-90—San. 19-20-4, dated 26th October 1920.

Recorded with the observation that the delay of more than two months in the submission of the report should have been avoided.

2. Dr. M. Srinivasa Rao, M.A., M.D., D.P.H., was in charge of the Public Health Department till the 7th January 1919 when, on his retirement, Mr. A.K. Pani, D.P.H., was appointed to officiate as Sanitary Commissioner.

3. Vital Statistics.—The total number of births in the State was 82,550 or 14·47 per mille of the population, as against 97,609 or 17·10 per mille in 1918. The highest birth rate for the year, *viz.*, 16·96 was recorded in the Tumkur District and the lowest 12·38 in the Mysore District.

The attention of the Deputy Commissioners of Districts is drawn to the remarks of the Officiating Sanitary Commissioner in paragraph 5 of the Report in regard to the unreliability of the Vital Statistics registered in certain towns. It is hoped that efficient arrangements will be made to secure correct registration in future.

The total number of deaths during the year was 93,793 or 16·44 per mille of the population, as against 343,948 or 60·28 per mille in the preceding year. The great disparity in the figures is largely due to the unprecedented mortality from Influenza during 1918.

In the previous year's Report, the Sanitary Commissioner proposed to prescribe a form of verification of vital statistics for the guidance of Inspecting Officers. The proposals called for by Government in this connection are still due and should be expedited.

It is one of the principal duties of District Sanitary Officers to see that vital statistics are properly collected and a correct record of them is maintained. Orders will separately issue regarding the control to be exercised by these officers in the matter.

The suggestion of the Officiating Sanitary Commissioner in regard to the opening of Municipal Depots for the supply of pure milk as a measure calculated to reduce infantile mortality and the appointment of Indian Lady Health Visitors to educate women in nursing and bringing up infants, is commended for the consideration of the larger Municipal Councils

4. Diseases.—*Cholera.*—The total number of deaths from cholera was 2,306 as against 3,158 in 1918. The largest number of deaths, *viz.*, 904 or ·16 per mille of population was in the Kolar District.

The work of sinking new wells and improving old ones continued to be in progress in rural areas during the year. Sanction has been accorded to the employment by Deputy Commissioners of trained fitters, whenever a sufficient number of wells has to be fitted up with pumps, the men required being supplied by the Superintending Engineer, Sanitary Circle, on requisition.

No. G. 8479-90—San. 19-20-4, dated 26th October 1920.

Small-pox.—There was a high mortality of 14,502 from small-pox during the year as against 4,442 in the previous year. The total number of vaccinations done was 168,493 as compared with 101,613 in 1918, the increase being due to better organization resulting from the appointment of full time Deputy Inspectors and closer supervision over the work of the vaccination staff.

Plague.—The total number of plague attacks and deaths for the year was 6,485 and 4,871 against 8,846 and 6,313 respectively in 1918. The largest number of deaths, *viz.*, 1,419 was in the Bangalore District. The number of inoculations performed was 23,048 as against 37,083 in the previous year. Evacuation, disinfection and inoculation were, as usual, the measures adopted to check the spread of the epidemic.

The administrative control over the Epidemic Diseases Hospitals in the cities of Bangalore and Mysore was transferred from the Sanitary to the Medical Department.

Influenza.—There was fortunately no recrudescence of influenza in a pandemic form as in the preceding year. But mild outbreaks occurred in the Kolar Gold Fields and in parts of the Chitaldrug, Kadur, Tumkur, Mysore and Hassan Districts. Medicine Depots were opened and other relief measures were adopted as in the previous year. Leaflets in English and Kannada and Hindustani on precautionary and remedial measures against the disease were widely distributed. A stock of anti-influenza vaccine was obtained from the Research Institute, Kasauli, and supplied to the Health Officers.

Malaria.—Malaria in an epidemic form broke out during the year in the Tiptur Town, affecting nearly 60 per cent of the population. A detailed investigation into the causes of this outbreak was made and suitable remedial measures were recommended to be carried out by the Municipal Council.

The anti-malarial measures adopted in the State were the removal of rank vegetation, filling in or draining of stagnant pools and oiling of pools and of wells in disuse, etc. A huge *nalla* along-side the Viceroy Road in Mysore City as well as many insanitary hollows in various parts of the city were filled up. Purniah's *nalla* which was a source of insanitation is being filled up and improved. Action should be taken in other towns also for the effective carrying out of anti-malarial measures, such as filling up or covering over of disused wells, prevention of excavations within or close to the town limits, drainage of stagnant pools, etc.

5. The Central Sanitary Board and Sanitary Works.—The Board advised on 17 schemes, estimated to cost Rs. 5,98,142, consisting of water-supply projects, improvement of drainage and construction of certain buildings.

The expenditure on works of a sanitary nature incurred by the several agencies during the year is shown below :—

	Rs.	A.	P.
(1) By Municipalities	64,502	0	0
(2) By the City Improvement Trust Board, Mysore	1,78,153	4	0
(3) By Do Do Bangalore	11,788	0	0
(4) By Public Works Department	17,579	0	0

6. Village Sanitation.—The provisions of the Village Sanitation Regulation were introduced during the year into 425 villages and separate places for storing manure were set apart in 407 villages.

About 1,104 villages were brought under Village Improvement Committees during the year. The main item of sanitary work undertaken by these committees was the construction or improvement of wells, the number newly sunk during the year being 306 and those improved, 121.

7. Malnad Improvement.—In 272 villages in the malnad, lantana and rank vegetation were cleared at an estimated cost of Rs. 24,317. Sixty-two wells were newly sunk and six old ones improved. Medical relief and sanitation formed the chief items in the programme of work of the Malnad Improvement Committees.

No. G. 8479-90—San. 19-20-4, dated 26th October 1920.

As it was felt that the plan of work and the organization for carrying out the scheme for Malnad Improvement was in need of revision in particular points, Government passed an order on 12th December 1919 re-constituting the Central Committee with a Member of Government as President and certain Heads of Departments as members and directing that the said Committee should meet once in three months at the headquarters of one of the three malnad districts or at Bangalore. The first meeting of the re-constituted Central Committee was held in Bangalore in March 1920. The appointment of Special Revenue Officers for looking after Malnad Improvement work was done away with and the work was ordered to be carried out by the Sub-Division and other Revenue Officers as part of their normal work. Instructions were also issued that attention should be concentrated on particularly insanitary areas, so that the available funds might be employed to the best advantage.

8. Medical Inspection of School Children.—Sixteen thousand one hundred and four school children were treated during the year in various places where dispensaries exist and 13,845 were cured.

9. Miscellaneous.—Thirty-one towns and twenty-three villages were inspected by the Sanitary Commissioner during the year and 447 towns and villages by theDistrict Health Officers.

The Department was re-organised during the year, the main feature of the re-organization being the improvement of the pay and prospects of the Health Officers.

The revision of pay and prospects of Sanitary Inspectors was also sanctioned during the year, the minimum and maximum pay fixed being Rs. 30 and Rs. 80 respectively.

The question of prescribing a set of rules to regulate the sanitary arrangements to be made on the occasions of Jatras, fairs and festivals in the State is under the consideration of Government.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Officiating Sanitary Commissioner in Mysore.
The Deputy Commissioners of Districts.
The Presidents of City Municipal Councils, Bangalore and Mysore.

The reports of the several District Magistrates on the working of the Mysore Factories Regulation, 1914, during the calendar year 1919, received with the communications noted below :—

(1) Pdl. No. 21 of 19-20, dated the 19th February 1920, from the District Magistrate, Kolar District.

(2) Per. J. 19—19-20, dated the 3rd March 1920, from the District Magistrate, Chitaldrug District.

(3) J. C. No. A. 19, dated 20th April 1920, from the District Magistrate, Bangalore District.

(4) Pdl. No. 211—J. 19-20, dated 27th May 1920, from the District Magistrate, Mysore District.

(5) No. nil, dated 19th June 1920, from the District Magistrate, Tumkur District.

(6) Dis. Per. 34, dated the 6th July 1920, from the District Magistrate, Hassan District.

(7) Pdl. 25-1, dated the 24th July 1920, from the District Magistrate, Kadur District.

(8) P. R. 37—J. 19-20, dated 13th August 1920, from the District Magistrate, Shimoga District.

Order No. G. 8363-70—Legis. 45-19-19, dated 23rd October 1920.

The total number of factories working during the year under review which came within the scope of the Mysore Factories Regulation, 1914, was 14 as against 12 in the previous year, two new factories having been registered in the Mysore District during the year. One of the factories in the Chitaldrug District is reported to have been closed during the year owing to a civil dispute.

2. The inspection work during the year was satisfactory except in the Mysore District, where the two factories registered during the year under review were not inspected.

3. All the seven accidents reported during the year happened in the Bangalore District. Two of these were of a somewhat serious nature resulting in the loss of an eye in the one case and injury to the right hand in the other case.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

ANNEXURE.

1.—*Pdl. No. 21 of 19-21, dated Kolar, the 19th February 1920, from the District Magistrate, Kolar District, to the Chief Secretary to the Government of His Highness the Maharaja of Mysore, Bangalore.*

I have the honor to report that during the Calendar year 1919, there were no factories in the district which came within the purview of the Mysore Factories Regulation No. III of 1914.

2.—*Per. J. No. 19—19-20, dated Chitaldrug, 3rd March 1920, from the District Magistrate, Chitaldrug District, to the Chief Secretary to the Government of His Highness the Maharaja of Mysore, Bangalore.*

I have the honor to submit the following report on the working of the Factories Regulation No. III of 1914 and the rules framed thereunder for the year 1919 in the Chitaldrug District.

2. There are six factories as in the year previous, working at Davangere registered under the Factories Regulation of 1892. Of these, two are cotton pressing, three cotton ginning factories and one both combined. Besides these, there were six ginning factories at Davangere, two at Harihar and one at Jagalur. These nine factories were not under the operation of this Regulation.

3. The Sub-Division Officer, Davangere, has inspected the undermentioned factories during the year and submitted reports:—

(1) South India Mysore Manufacturing Company, Davangere.
(2) Tadapathri Cotton Press Company, Ltd., Do
(3) Swadeshi Mills Ginning Factory, Do
(4) Messrs. Basettappa and Hanumanthappa Company, Davangere.
(5) The Mahalakshmi Ginning and Manufacturing Do Do

It is reported that the Hiralal and Maganlal Ginning Factory was not inspected as the same is practically closed for over two years owing to some civil dispute between the partners.

The District Medical Officer who is the certifying Surgeon under Section 6 of the Regulation inspected all the factories at Davangere in this month.

4. *Water Supply and Sanitation.*—The water used for the working of the Engines in all the factories is reported to be pure and adequate. The sanitation and ventilation were generally satisfactory.

5. *Latrines.*—The seats provided for males and females are reported to be adequate as required in para 20 of the Regulation.

6. *Holidays.*—Sundays were observed as holidays in all the factories.

7. No serious accidents were reported during the year.

8. There were no prosecutions for breaches of the provisions of the Regulation.

9. Statement showing the details of working of the factories is herein enclosed.

No. G. 8363-70--Legis. 45-19-19, dated 23rd October 1920.

3.—*J. C. No. A. 19, dated Bangalore, the 20th April 1920, from the District Magistrate, Bangalore District, to the Chief Secretary to the Government of His Highness the Maharaja of Mysore, Bangalore.*

I have the honor to forward herewith the report on the working of the Factories Regulation and the rules framed thereunder for the year ending 31st December 1919.

2. The number of factories that came under the provisions of the Regulation remained the same as in the previous year :—

(1) The City Brick and Tile Works, (2) The Bangalore Woollen, Cotton and Silk Mills Co., Ltd., (3) The Mysore Spinning and Manufacturing Co., Ltd., Bangalore.

3. All the three factories were inspected twice during the year by the then City Magistrate, Bangalore, Mr. B. Basavaradhya, conjointly with the District Medical Officer. The last of the inspections of the above-said two factories was on 15th June 1919 and 21st June 1919 respectively and that of the 3rd was on 28th June 1919.

A consolidated statement of the observations made by the District Medical Officer is enclosed for perusal together with the consolidated A statement received from the City Magistrate, Bangalore.

4. *Accidents.*—There were in all seven accidents during the year of which four were in Bangalore Woollen, Cotton and Silk Mills. Out of these, two were of a somewhat serious nature, *viz.*, one man lost one eye and another was injured in his right hand but none was fatal.

Two of the accidents were in the City Brick and Tile Works and one was in the Mysore Spinning and Manufacturing Co., Ltd., Bangalore.

5. *Water Supply.*—Water supply was reported to be good except in the Mysore Spinning and Manufacturing Co., Ltd. It is observed by the District Medical and Sanitary Officer that the Water Works Department have not yet granted them water connection under the impression that it was intended for industrial purposes. As it is intended for drinking purposes, the Mill authorities will be desired to address the Executive Engineer, Water Works Department in the matter.

6. *Latrine, Ventilation and General Sanitation.*—The Latrine, Ventilation and general sanitation were satisfactory, sufficient and good in all the three factories.

7. *Building.*—The City Magistrate in para 7 of his inspection note reports that arrangements *re* drainage for the Mysore Spinning and Manufacturing Company, Limited, are generally satisfactory, but the washings of the newly built bullock-shed are allowed to run into the vacant ground adjacent to it, rendering it insanitary and that the Resident Manager has been personally instructed to put up a small vat just below the outlet for collecting the washings and removal of the same whenever the shed is washed. The latrine and the tallow-shed have been removed and rebuilt in separate places, as suggested in the previous year.

8. The prescribed registers are maintained and they call for no remarks.

Notes of Joint Inspection of the City Brick and Tiles Company, Limited, Bangalore, held by the City Magistrate, Bangalore and the District Medical and Sanitary Officer, Bangalore District, on the 15th June 1919.

1.	**Date of last inspection**	.... **15-2-1919.**
2.	**Whether all children and men employed were mustered and inspected (Rule 8 and 13)**	.... **Yes.**

No. G. 8363-70—Legis. 45-19-19, dated 23rd October 1920.

3. Whether a file of certifying Surgeons' Certificates (B certificates) have been maintained (Rule 15)....	Yes.
4. Whether C, D and E Registers have been maintained as per rules (Rule 16)	Yes.
C Register.—How many children were admitted to employment since date of last inspection	59, all are certified.
D Register.—What is the number of children on the roll?	38 boys and 21 girls.
E Register.—The number of women on the roll	71 women.
5. Whether a printed or written notice in English or Kanarese in form "F" of the daily working hours of the factory has been set up in a conspicuous place in the factory (Rule 17) ...	Yes.

4.—*Pdl. No. 211—J. 19-20, dated Mysore, 27th May 1920, from the District Magistrate, Mysore District, to the Chief Secretary to the Government of His Highness the Maharaja of Mysore, Bangalore.*

I have the honor to submit the following report on the working of the Factories Regulation and the Rules thereunder for the Calendar year 1919 :—

2. The following factories come within the purview of the Regulation :—

(1) Sri Kasi Viswanatha Chikkanna Rice Mill & Co., Mysore.
(2) The Cauvery Rice Mills, Mysore.
(3) The Hunsur Works, Hunsur. (The Mathesons Works.)
(4) The Brick and Tile Factory, Hinkal, Mysore Taluk.
(5) The Brick and Tile Works, Ltd., Mysore.

The first two carry on the rice milling industry, the third curing and milling coffee, preparing artificial manures, sawing and joinery works, engineering and motor garage, and the fourth and the fifth manufacturing bricks and tiles of different sorts.

3. Sri Kasi Viswanatha Chikkanna Rice Mill & Co., Mysore and the Hunsur Works, Hunsur, are worked by steam, and the rest by electric motors of the following capacity :—

Chikkanna Rice Mill	....	16 H.P.
Cauvery Rice Mills	....	25 I.H.P.
The Hunsur Works	....	30 N.H.P.
Hinkal Brick & Tile Factory	....	40 H.P.
The Brick & Tile Works, Mysore	....	15 H.P.

The first two are worked mainly by shifts and the last three by midday stoppages.

4. Sundays and other important festival days are observed as close holidays in all these Mills, and in addition, respite is given on every Thursday at the Hunsur Works on account of weekly fair.

5. The daily average number of operatives employed in these Mills was :—

Adults	31 males 17 females	In the Kasi Viswanatha Rice Mill.
,,	22 males 23 females	In the Cauvery Rice Mills.
,	68 males 14 females	In the Hunsur Works.
Children	15 males 11 females	
Adults	15 males 15 females	In the Hinkal Brick and Tile Factory.
Children	10 boys & girls.	
Adults	20 males 10 females	In the Mysore Brick and Tile Works.
Children	23 boys	

6. The Hunsur Works was inspected by the District Magistrate once on the 11th July 1919, 60 times by the local Medical Officer and 4 times by the Taluk Magistrate. The City Magistrate, Mysore, inspected the Cauvery Rice Mills and the Kasi Viswanatha Rice Mill on the 30th December 1919.

7. The sanitary arrangements were generally satisfactory.

8. There were no accidents of any kind during the year under report.

9. The usual statement showing the details of the working of these factories is enclosed.

No. G. 8363-70—Legis. 45-19-19, dated 23rd October 1920.

Statement showing the details of the working of the Factories in the Mysore District, during the Calendar year 1919.

5.—*No. Nil, dated Tumkur, the 19th June 1920, from the District Magistrate, Tumkur District, to the Chief Secretary to the Government of His Highness the Maharaja of Mysore, Bangalore.*

I have the honour to report that there were no factories registered during the year 1919, in this district for a report to be submitted under the Factories Regulation.

6.—*No. Dis. Per. 34, dated 6th July 1920, from the District Magistrate, Hassan District, to the Chief Secretary to Government of His Highness the Maharaja of Mysore, Bangalore.*

I have the honor to report that there are no factories registered in this district under the Factories Regulation during the year 1919.

7.—*No. Pdl. 25-1, dated Chikmagalur, 24th July 1920, from the District Magistrate, Kadur District, to the Chief Secretary to the Government of His Highness the Maharaja of Mysore. Bangalore.*

I have the honour to state that there were no factories established under the Factories Regulation in this district during the year 1919.

8.—*No. P. R. 37—J. 19-20, dated Shimoga, 13th August 1920, from the District Magistrate, Shimoga District, to the Chief Secretary to Government of His Highness the Maharaja of Mysore, Bangalore.*

With reference to your letter No.G. 26747-51—Legis., dated 29th May 1920, I have the honour to state that no factories were inspected by me during the year 1919-20. It is reported that there are no factories in the district as defined in the Mysore Factories Regulation.

I regret the delay in submitting this report which was due to prompt action not having been taken in the office by a former Judicial Head Munshi. I am making enquiries into the matter.

1

Deputy Registrar, Chief Court of Mysore

G. O. No. G. 7300-1—Cts. 51-19-6, dated 2nd October 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Correspondence ending with letter No. R. O. C. 65, dated 16th July 1920, from the Registrar, Chief Court of Mysore, recommending that Mr. N. B. Srinivasa Iyengar, B.A., may be confirmed as Deputy Registrar, Chief Court, and stating that he is a competent and efficient officer fit in every way to discharge the duties attached to the post though he is not a Law Graduate.

Order No. G. 7300-1—Cts. 51-19-6, dated 2nd October 1920.

Consequent on the confirmation of Mr. S. Venkataranga Iyengar as Munsiff, the post of Deputy Registrar in the Chief Court fell vacant, and proposals to fill up the vacancy permanently were invited from the Chief Court. The Chief Court proposed that Mr. N. B. Srinivasa Iyengar, B.A., who was acting as Deputy Registrar, as a temporary measure might be confirmed in that appointment as a special case, or that in the alternative the post of an Assistant Registrar on a pay of Rs. 150—10—250 might be sanctioned and Mr. Srinivasa Iyengar appointed thereto, leaving the Deputy Registrar's place to be filled up otherwise. These proposals were vetoed, as under the rules for recruitment of Munsiffs issued in Government Order No. J. 2643-Cts. 199-14-4, dated 25th January 1917, no one other than a graduate-in-law could be appointed as a Munsiff and the Deputy Registrar's place was included in the Munsiff's cadre. It was also considered undesirable to create a new appointment of Assistant Registrar under the present condition of work in the Chief Court. The Judges of the Chief Court were therefore asked to reconsider the matter and send up fresh proposals. While again recommending Mr. N. B. Srinivasa Iyengar for the post of Deputy Registrar, the Chief Court have stated that the scheme of competitive examination for Munsiffs contained in the order referred to having been held in abeyance, the rules prescribing the qualifications for Munsiffs embodied in that order cannot be considered to be in force and that therefore there was no technical objection to the appointment of Mr. Srinivasa Iyengar, who had passed all the tests prescribed for the Munsiff's appointment prior to the passing of the rules mentioned above, as a Deputy Registrar.

2. On a careful consideration of the question, Government are of opinion that Mr. Srinivasa Iyengar's confirmation with the grade pay of Munsiff, *viz* Rs. 200—$\frac{50}{3}$—400 per mensem cannot be justified. They are therefore pleased to direct that the appointment of Deputy Registrar be taken out of the cadre of Munsiffs and that the pay of the appointment be fixed at Rs. 200—$\frac{100}{1}$—300.

3. The confirmation of Mr. N. B. Srinivasa Iyengar as Deputy Registrar in the said grade is also sanctioned.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Registrar, Chief Court of Mysore.
The Comptroller to Government, through Financial Sectt.

No. G. 7350-410—G. M. 100-20-1, DATED 2ND OCTOBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. G. 7350-410—G. M. 100-20-1; dated 2nd October 1920.

In Government Order No. 11121-94—EDN. 5-19-119, dated 25th May 1920, revising the scheme of Foreign scholarships and deputations no date has been fixed for the submission of proposals by the Heads of Departments, every year, for the deputations of officers of their departments and the details of information which should be submitted with such proposals have also not been prescribed. With a view to facilitate the disposal of such proposals in time, Government are pleased to direct that in future proposals in regard to departmental deputations be submitted before the 15th February every year.

Heads of Departments are requested to furnish with these proposals full details regarding the age, qualifications, service, the nature and duration of the course of training proposed, the allowances proposed to the Officer during the period of deputation, the departmental requirements in respect of which the deputation is proposed and other necessary details.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Heads of Departments.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Correspondence ending with the Revenue Commissioner's letter No. C. Per. 136, dated 9th October 1920, forwarding a revised statement showing the losses in cattle of various kinds in the Mysore State for the year ending 30th June 1920.

(Printed with the Revenue Commissioner's review thereon as an accompaniment.)

Order No. 358-67—Stl. 15-20-4, dated 23rd October 1920

Recorded.

C. S. BALASUNDARAM IYER.
Chief Secretary to Government of Mysore.

To— The Revenue Commissioner in Mysore.
The Director of Agriculture in Mysore.
The Deputy Commissioners of Districts.

Exd —M.V.

ACCOMPANIMENT.

Revenue Commissioner's Review.

Recorded.

2. The total mortality during the year under review was 55,868 as against 86,258 in the previous year, resulting in a marked decrease of 30,390. The number of cattle that died of sickness decreased from 43,632 to 28,242. There was a marked fall in the number of deaths under this head in the districts of Bangalore, Kolar, Tumkur, Hassan and Shimoga. There has been an appreciable reduction in the number of deaths by wild beasts.

3. As a preventive measure, inoculation of healthy cattle in the affected localities was freely resorted to; 23, 698 head of cattle were inoculated against 'rinderpest' and 544 against 'black quarter' as against 24,772 and 600 respectively in 1918-19.

N.B.—The Deputy Commissioner Bangalore District, reports that necessary preventive measures have been taken by the Officers of the Revenue and Civil Veterinary Departments.

S. O.

No. R. 4860-4 / L. R. 41-19-56

GOVERNMENT OF H. H. THE MAHARAJA OF MYSORE,
GENERAL AND REVENUE SECRETARIAT,
Dated Bangalore, the 6th October 1920.

OFFICIAL MEMORANDUM.

With reference to Government order and the correspondence noted in the margin, relating to the introduction of resurvey and resettlement into certain villages of Mysore, Seringapatam and Krishnarajapet Taluks and French-Rocks Sub-Taluk commanded by the channels from the Krishnarajasagara, Government are pleased to observe as follows.

1. G. O. No. R. 5151-4—L. R. 41-19-13, dated 3rd November 1919, directing the resurvey and resettlement of the 74 villages in Mysore, Seringapatam and Krishnarajapete Taluks and the French-Rocks Sub-Taluk commanded by the channels from the Krishnarajasagara.
2. Letter No. 1668, dated 4th December 1919, from the Chief Engineer, Cauvery Valley Irrigation, suggesting that the scope and intention of the resettlement operations directed in the G. O. read above, be clearly defined and a declaration issued to the effect that the said operation does not include hot weather supply, as otherwise, there is very little chance of the ryots in the villages to be resurveyed and resettled coming forward to pay contribution and water rate for the Block System of Irrigation.
3. Correspondence ending with letter No. 1068, dated 19th March 1920, from the Chief Engineer of Mysore on the subject.

With a view to arrive at a decision as to the lines on which the resettlement of the villages commanded by the Krishnarajasagara should be conducted, a Committee consisting of the officers marginally noted was appointed with the Chief Engineer, as Chairman, for discussing the details and submitting recommendations in the matter for the orders of Government. The Chief Engineer accordingly submitted a copy of the proceedings of the meeting of the Committee held on 7th February 1920. The alternative proposals relating to the question considered by the Committee are as follows:—

Chief Engineer.
Do Cauvery Valley Irrigation.
Revenue Commissioner.
Superintendent, Revenue Survey and Settlements in Mysore.
Secretary to Government, Revenue Department.

(1) To adhere to the old classifications adopted in the previous survey and to revise old rates suitably to meet existing conditions, taking into consideration various factors that usually enter into such revision, and try to work the block system under the conditions and restrictions laid down in G.O. No. R. 1-15—L.R. 448-16, dated 26th April 1919.

(2) To confine the revision settlement rates only to monsoon crop, or

(3) To consider the exceptional nature of irrigation facilities for continuous and assured supply to be created shortly, to engineer the proposed Irrigation Act through the Legislative Council, and to take powers to separate land or soil rates from water rates as has been done under all the productive irrigation works in the Bombay Presidency, the system of Revenue Survey and Settlement in which province have been adopted in Mysore.

The Committee have expressed the opinion that proposals (1) and (2) are not feasible for reasons stated, and accepting proposal (3), they recommend that the resettlement may be confined to fixing soil rates only, leaving the question of water rates both for the monsoon and hot weather supply to the Irrigation Department, the amount of water rate being fixed at Rs. 5 and 6 per acre for the two periods of supply respectively, to start with, for a period of six years, the rates being subject to revision thereafter at such intervals as the Government may fix, say every decade.

No. R. 4860-4—L.R. 41-19-56, dated 6th October 1920.

The Survey Superintendent, however, considers that legislation is not necessary to invest Government with powers to direct the separation of land or soil rates from water rates.

Government have carefully considered the question and are unable to accept the recommendation of the Committee to separate land or soil rates from water rates during resettlement, as it involves a complete departure from the existing system of revenue settlement in force in the State and the Government are not prepared to effect a change of system in respect of the special area in question. Nor does the second alternative of confirming the revision settlement rates only to the monsoon crop, in respect of all wet lands including the established sugarcane tracts, commend itself to Government.

In the foregoing circumstances, the Government are pleased to direct that the resettlement operations in the villages commanded by the channels from the Krishnarajasagara should be effected in the manner as indicated below :—

I. *Dry lands.*—These will be resettled under the usual conditions of resettlement and will continue to be classed as "dry," subject to the levy of water rate under the rules framed, or that may hereafter be framed, in this behalf. They may, however, be classed as "wet" if they have been so cultivated with wet crops during the past five years, or more, and they shall, however, be liable to enhanced assessment if they make use of the channel water for raising crop during the hot weather.

II. *Monsoon supply "wet" lands.*—In the case of these lands also, ordinary resettlement principles will be followed. Hot weather supply need not be considered in fixing the new rates. When the reservoir and channels schemes are completely developed and hot weather supply is made available, Government will have the right to levy extra water rate under the rules for such supply to be framed for the purpose.

III. *Lands entitled, by manul, to hot weather supply.*—Revision will be based on two considerations, *viz.*, (i) increase of assessment due to resettlement under the ordinary principles and (ii) an additional percentage of increase on account of the assured (or guaranteed) hot weather supply. When in any year, it is found that such supply cannot be given to any lands, a proportionate rebate will be allowed in respect of such additional percentage.

The Survey Superintendent will obtain from the Revenue Commissioner exact particulars regarding the lands classed as sugarcane tracts entitled to hot weather supply at the last settlement, and also regarding the lands on which sugarcane had been actually cultivated at any time since the settlement. The Chief Engineer (Irrigation) will then be consulted and decision arrived at as to the lands which may be given the assurance (or guarantee) of hot weather supply, at the resettlement, along with the concession of rebate attached thereto as explained above.

The Survey Superintendent need not concern himself with the question of the block system. He will proceed with the resettlement operations as expeditiously as possible on the lines indicated above issuing the necessary confidential instructions to the Departmental Officers concerned.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. R. 6292-302—L.R. 369-10-4, dated the 31st December 1915, passing orders on the question of payment and the compulsory levy of miras to totis and talaris.

2. Representations brought forward at the Representative Assembly of 1917 and other sessions of the assembly, complaining on the one hand, that the payment of miras, operates as a hardship on land owners for whom these village servants do no work, and on the other that the land owners are not regularly giving the miras and that besides the rate of miras is insufficient.

3 The report of the Special Committee of the Representative Assembly appointed by Government to investigate the subject.

Order No. R. 5135-44—L. R. 419-17-6, dated 15th October 1920.

The committee reported that the rate of three seers of grain per acre is very high, that the system has not worked satisfactorily and that the rates are in general a dead letter, and they accordingly submitted the following recommendations:—

(1) That the payment of remuneration of these village servants who do only Government work and no communal work is a legitimate charge on Government and the required funds should, therefore, be provided for from the General Revenues of the State.

(2) The cash remuneration which should be slightly less than that of Patels should be in addition to the inam lands held by them.

(3) Should Government, however, find it impracticable to meet the entire cash remuneration, the levy of a cess in proportion to the ryots' half contribution may be ordered as a last resource.

2. The subject was considered at a meeting of the Deputy Commissioners and select Heads of Departments held in March 1920, wherein the following decision was arrived at:—

"The rules may be modified by ordering a levy equivalent to two annas in the rupee on dry and one anna on wet and garden assessment. The inams held must be made inalienable and impartible. The extent of land to be given as inam should not exceed 10 acres of dry, 3 or 5 acres of wet, in addition to the miras. The Representative Assembly members may be consulted with regard to the levy of a cess."

3. At the Representative Assembly of June 1920, the question was again warmly discussed and opinion was against the levy of the proposed cess.

4. Government have given the case their careful consideration and consider that the payment of cash remuneration at the cost of Government, either entirely or in equal shares, with the ryots' cess is out of the question at present on account of the enormous cost involved. When, however, resettlement operations show adequate progress resulting in an appreciable increase in the land revenue Government will be prepared to take up for favourable consideration this subject along with the general question of the revision of Village Establishments.

5. In these circumstances Government direct that the order of 1915 read above may continue in force till such time as it will be possible for Government to provide for a paid staff of totis and talaris.

No. R. 5312-21—L. R. 14-20-6, DATED 23RD OCTOBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

1st Letter No. C. Per. 52-1, dated 27th—30th September 1920, from the Revenue Commissioner in Mysore, forwarding a copy of his review on the progress made in the constitution of Tank Panchayets during the half year ended 30th June 1920.

Order No. R. 5312-21—L. R. 14-20-6, dated 23rd October 1920.

Recorded.

2. It is very unsatisfactory to note that in spite of repeated instructions the Deputy Commissioner of Mysore delayed the submission of the return so long after it fell due and that the Deputy Commissioner of Kolar has not yet submitted the return, in spite of reminders. The return of the Kolar District should be obtained and submitted at once for the information of Government with the Deputy Commissioner's explanation for the delay.

3. The statement of progress made in the several districts during the period under review (stated to have been appended to the Revenue Commissioner's review) has not been received and the same should be furnished immediately.

4. Two new panchayets were constituted in the Kolar District and one in the Mysore District.

5. Report of work actually done by the panchayets has not been furnished by the Deputy Commissioners of any of the districts except Chitaldrug, though their attention was repeatedly drawn to the omission in previous half yearly reviews of Government.

6. Government regret to note that the Tank Panchayets constituted in the State have not been working satisfactorily. This is mostly due to the apathy of the local officers and the ignorance of the villagers of the benefits derivable from the scheme. Touring officers should make it a point to explain the objects of the scheme to ryots and to enlist their co-operation in the matter. One Tank Panchayet in the Hassan District is reported to have collected a sum of Rs. 58 for maintenance work and another in the Chitaldrug District is said to have executed earthwork to the extent of Rs. 300. Government trust that with wider knowledge and appreciation of the benefits of the scheme by the people the scheme will be a greater success.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

No. R. 5312-21—L. R. 14-20-6, DATED 23RD OCTOBER 1920.

Review of the Revenue Commissioner on the progress made in the constitution of Tank Panchayets in the several districts during the half year ended 30th June 1920.

Recorded.

2. The dates on which the returns were received in this office are noted in the margin. The return for the Mysore District was received on the 4th instant and that for the Kolar District has not been received as yet in spite of reminders. Information for the latter district has however been obtained from the Administration Report.

Bangalore	.. 17-7-1920
Kolar	(not received)
Tumkur	.. 28-7-1920
Mysore	.. 4-9-1920
Hassan	.. 17-7-1920
Shimoga	.. 26-7-1920
Kadur	.. 29-7-1920
Chitaldrug	.. 15-7-1920

The appended statement shows the progress made in the several districts during the period under review. Except in the Kolar and Mysore Districts where the number of Panchayets under the scheme increased by two and one respectively there was no progress in this direction in the other districts. Except the Deputy Commissioner, Chitaldrug District, none of the other Deputy Commissioners has submitted a report on the actual work done by the Panchayets during the period. Generally speaking the work turned out by the Panchayets does not seem to be satisfactory except for a few instances here and there. The Kodikannur Tank Panchayet, Kolar Taluk, is reported to have held periodical meetings and to have arranged for the economic distribution of water. The Tank Pancahyet of Shanka Village, Hassan Taluk, is reported to have cleared the jungle growth and collected Rs. 58 for maintenance work. In the Shimoga District four Panchayets are reported to have held meetings and to have executed petty repairs to the tanks in their charge while in the Kadur District a certain amount of work was done by the Magadi Tank Panchayet in getting jungle growth cleared and turfing the bund. In the Chitaldrug District the Bharamasagara Tank Panchayet which had undertaken to do maintenance work executed earthwork to the tank to the extent of Rs. 300 through the agency of the Panchayet.

The results of the working of the Panchayets have not been satisfactory in any of the districts. Greater attention should be given by the Revenue Officers to explain the scheme to the ryots and to popularise it and bring it into operation as widely as possible.

Krishnarajasagara Works.

No. Camp 14-18—L.R. 41-19-59, dated 22nd October 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Correspondence ending with letter No. C 1801, dated 4th August 1920, from the Revenue Commissioner in Mysore, furnishing his opinion on the continuance or otherwise of the Special Land Acquisition Officer and Special Deputy Amildars appointed in connection with Krishnarajasagara Works and their establishments.

Order No. R. 14-18—L.R. 41-19-59, dated, Camp Mysore, 22nd October 1920

The Revenue Commissioner was asked to discuss with the Deputy Commissioner, Mysore District and other officers concerned, the question of making satisfactory arrangements for the prompt disposal of the acquisition work in the Krishnarajasagara area. After a careful consideration of the several suggestions made by the Special Land Acquisition Officer, the Revenue Commissioner is of the opinion that it is inexpedient, at this stage, to do away with the Special Officer for acquisition work and to entrust it to the respective Revenue Sub-Division Officers, since 800 acres of land have yet to be acquired for the first stage of the Krishnarajasagara and 5,000 acres for the second stage and he makes the following proposals in the matter:—

(1) The Special Officer may be kept on for a further period of two years, since the acquisition work and the settlement of claims consequent thereon is expected to keep him fully engaged during that period.

(2) The Special Officer is to be relieved of his revenue duties and to be employed solely on land acquisition work, the revenue jurisdiction over the area now under his charge being transferred to the Sub-Division Officers in charge of the taluks concerned.

(3) The three Special Deputy Amildars and their staffs are to be abolished and the hoblis in their charge restored to the taluks concerned.

(4) An additional staff of eight gumastas and twenty-eight peons is to be sanctioned temporarily for one year to the several taluks, instead of the ministerial and other staff now employed under the Deputy Amildars.

(5) The newly constituted hoblis are to be left undisturbed for the present

(6) The Land Acquisition Officer is to be authorised to correspond direct with the Amildars who should promptly comply with his requisitions and carry out his instructions in respect of land acquisition and other work on matters referred to in paragraphs 3 (1) and 8 of his Memorandum dated the 11th June 1920.

(7) Two of the revenue clerks of the Special Land Acquisition Officer's establishment are to be abolished and the Survey Settlement to be reduced, as shown in the Proposition Statement.

(8) The three Sub-Overseers now working under the Special Officer should be transferred to the Public Works Department who will henceforth be responsible for the items of work now attended to by these officers.

2. The proposition statement appended to this order has been submitted by the Revenue Commissioner for the revision of the establishment, which results in a savings of Rs. 1,068-9-10 per mensem or Rs. 12,826-4-5 per annum.

No. CAMP 14-18—L.R. 41-19-59, DATED 22ND OCTOBER 1920.

3. Under these circumstances, Government are pleased to sanction the Revenue Commissioner's proposals in their entirety, the revised arrangements being brought into effect from 15th November 1920 or earlier. The Revenue Commissioner is requested to take necessary steps to give due effect to the above and to submit proposals wherever necessary, to provide other places to the Special Deputy Amildars concerned.

1

Revision Settlement of 232 Villages of the late Magadi Taluk.

No. R. 5453-64—L. S. 42-18-4, DATED 30TH OCTOBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Proceedings No. 1463 —Rev. 46, dated 13th May 1879, sanctioning the original settlement of the old Magadi Taluk in Bangalore District.

2. Letter No. 241, dated 10th May 1920, from the Superintendent, Revenue Survey and Settlements in Mysore, submitting proposals for the Revision of the assessment of 232 Government villages of the old Magadi Taluk.

(Printed as Accompaniment I.)

3. Correspondence ending with letter No. 53, dated 23rd August 1920, from the same officer on the same subject.

Order No. R. 5453-64—L. S. 42-18-4, dated 30th October 1920.

The proposals relate to the revision of the assessment of 232 Government villages, all of which lie in the present Magadi Taluk, except one village Vadavatta, which belongs to the present Closepet Sub-Taluk.

2. The taluk is almost rectangular in shape measuring about 22 miles, north to south and 14 miles east to west, with a good and healthy climate, except in the hilly and jungle tracts in the south. The rainfall is on the whole good. The soil is mediocre, but is greatly improved by a fairly copious rainfall.

3. Ragi and avare are the principal dry crops, the wet lands being mostly cultivated with paddy and sugar-cane also to some extent. There is not much garden cultivation, but what there is consists chiefly of betel vine, cocoanut, areca, etc.

4. The Arkavati flows through the taluk in a deep ravine and is of little use for irrigation, which depends solely on tanks and wells. There are 202 tanks (of which 21 are major) and 1,533 wells of which 658 are used for irrigation.

5. The taluk is well supplied with roads, two important new roads having been added (to the existing 3 main roads) since the original settlement. There are also numerous cart-tracts connecting the several villages in the taluk. The railway line runs close to the border of the taluk.

6. The population of the taluk fell from 68,605 in 1871 to 40,344 in 1881, owing to the great famine of 1878, but it steadily rose to 67,790 in 1911.

7. The agricultural resources of the taluk have improved since the original settlement. The value of land has increased and the prices of food stuffs, etc., have nearly doubled themselves. There has been a steady increase in all kinds of cultivation and the revenue history of the taluk is of a very encouraging kind, chiefly due to the leniency of the current settlement.

	Increase per cent.
Houses	55
Cattle	23
Carts	95
Ploughs	34

8. The Survey Superintendent proposes to revise the original rates as shown below, keeping intact the existing grouping of the villages under three heads.

Land		Maximum rate per acre		Average per acre	
		Original	Revised	Original	Revised
Wet group	I ...	8 0 0	8 8 0	3 14 8	4 2 8
	II ...	8 0 0	8 8 0	4 2 2	4 6 5
	III ...	7 8 0	8 0 0	3 12 3	4 0 3
Dry „	I ...	2 4 0	2 8 0	1 1 8	1 3 8
	II ...	2 0 0	2 4 0	1 0 7	1 2 8
	III ...	1 12 0	2 0 0	0 14 10	1 0 11
Garden	...	15 0 0	12 0 0	4 6 2	3 10 6
General average	...	...	...	1 5 1	1 8 0

No. R. 5453-64—L. S. 42-18-4, DATED 30TH OCTOBER 1920.

The above proposals involve an increase of Re. 0-1-11 or 9 per cent in the general average rate per acre and are estimated to result in an aggregate increase of Rs. 10,528 over the present annual revenue.

9. The rates proposed above were duly notified for the information of the ryots concerned, none of whom, however, are reported to have taken objection thereto. The Assistant Commissioner in charge of the Bangalore District, vaguely recommends a more "lenient" rate, but he does not indicate where and how the proposed rates are hard. The Revenue Commissioner agrees to the revised wet rates but recommends an increase of only 2 annas (against 4 annas proposed) to the existing dry maximum rate. The Survey Superintendent however points out that the increase of 4 annas in the maximum average referred to above, is only normal and that when actually worked out on lands, the increase amounts to only 2 annas. The revised rates proposed by the Survey Superintendent compare favorably with those sanctioned for the adjoining taluks and are only very slightly in excess of the existing rates, which are themselves lenient. The material and agricultural resources of the taluk, having appreciably improved since the original settlement and the increases in the rates proposed by the Survey Superintendent being moderate, Government are pleased to sanction in their entirety, the rates proposed by the Survey Superintendent, which will be announced as soon as possible and brought into effect from the year 1921-22, with the usual guarantee of 30 years.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Superintendent of Revenue Survey and Settlements in Mysore.
The Revenue Commissioner in Mysore.
The Deputy Commissioner, Bangalore District.
The Director of Agriculture in Mysore.
The Comptroller to Government.
The Deputy Commissioners of other Districts.
PRESS TABLE.

EXD.—C.R.

No. R. 5453-64—L. S. 42-18-4, dated 30th October 1920.

Office of the Superintendent,
Mysore Revenue Survey
Dated Bangalore, November 1918.

From

D. K. DARASHAH, Esq., B.A.,

Superintendent of Revenue Survey and Settlements in Mysore, Bangalore.

To

B. RAMASWAMAIYA, Esq., B.A., B.L.,

Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department.

Sir,

I have the honor to submit the following proposals for revising the rates of assessment in the Magadi Taluk of which the survey settlement for the first time was sanctioned in Government Proceedings No. 1463—Rev. 46, dated 13th May 1879.

2. *Boundaries.*—Magadi is a taluk in the west of the Bangalore District, and is bounded on the east by Bangalore and Nelamangala Taluks, on the south by Closepet Sub-Taluk, on the west by Kunigal Taluk, and on the north by Tumkur Taluk. Its western and northern boundaries are the limits of the district on that side.

3. *Constitution.*—The taluk as at present constituted, differs but slightly from what it was at the time of the original settlement. The difference will be noticed in the south-eastern corner, where, for the sake of compactness a few villages of the old Kengeri (Closepet) and Bangalore Taluks were added on, and a few others were excluded. Paras 59 to 61 of the original settlement report and para 12 of the Government order thereon explain the matter. The present report refers to the tract dealt with at the original settlement, which is illustrated in the accompanying map, and which then contained 234 Government villages, 20 kavals and 1 State Forest, or 255 villages altogether. Subsequently, 32 villages were absorbed in neighbouring villages, and 9 villages were newly formed, as a result, mainly, of the action taken to remove the confusion that existed in connection with the boundaries of, and rights in, Kavals and Inam villages. The villages have, by these operations, now been reduced to (255 minus 32 plus 9 or) 232 in number, as detailed in the Classwar statement, Appendix B of this report. All the villages, except one, *viz.*, Vadavatta, are in the present Magadi Taluk; Vadavatta now belongs to the Closepet Sub-Taluk.

4. *Physical features.*—In shape, the taluk is almost rectangular, with a few villages straggling in the south-east and the south-west. Its length from north to south is about 22 miles and breadth from east to west, about 14 miles. Situated, as it is, between two lofty peaks—the Sivaganga, just outside the border in the north rising to a height of 4,559 feet above the sea, and the Savandurga 4,024 feet high, in the south—the country is a succession of pretty well defined elevations and depressions. Leaving the Sivaganga peak a little behind, and entering the taluk from the north, we cross a gently undulating surface dotted with small hills, rocky and bare. Farther south the country becomes still more hilly and appears more and more thickly studded with vegetation until we reach Savandurga and Siddedevarbetta where the configuration is relatively speaking mountainous, and covered with dry jungle. This part is said to have been a great forest in days gone by, but now, nothing better than scrub jungle is seen, except in the immediate neighbourhood of Savandurga, where bamboos and timber trees of inferior kind are available. Savandurga itself is an enormous mass of granite, divided by a chasm into two peaks, called Karibetta and Bilibetta; it is of historical importance, having been the stronghold of Kempegowda and of other chiefs before him. The character of the surface of the country does not admit of one common system of natural drainage; there are three out-lets in three different directions. The north-east is drained off by the Arkavati, which in this taluk, is a big stream flowing in a deep revine, and of little use for irrigation by gravitation. The drainage of the centre and the west is carried off to the south by several small streams, which go to form the Kanwa which is of less importance than

the Arkavati. The surplus water of the north-west is led away towards the Kunigal frontier by a number of little streams. On the banks and even in sections of the beds of these streams, is observed a prolific growth of *Honge* trees, an important asset to the raiyat for the supply of manure, oil and fuel. Besides the *Honge*, the wild date grows abundantly in the centre and the west.

5. *Soils.*—In the bottom of the valleys, as a rule, the soil is good, though sand is also found washed down from the heights. The quality of the soil deteriorates as the land rises, so that in high-lying fields, the soil is generally poor. There is no real black soil in the taluk. Several classes of soil are met with, but the most common variety is the red, with a mixture of stones. In point of fertility, this kind of soil is mediocre, but its productivity is greatly improved by a fairly copious rainfall.

6. *Rainfall.*—There are only three rain gauge stations in the tract, one at Magadi, one at Solur, and a third at Tavarekere. A new station may well be opened at Kudur, to record the rainfall in the north-west. The rainfall at Magadi, Solur and Tavarekere taken from the latest Report on Rainfall Registration (1916) published by the Meteorological Department, is as shown hereunder: —

Station	Rainfall during 1916	Average
	(Inches)	(Inches)
Magadi	31 95	31 59 for 46 years
Solur	31 55	29 66 do
Tavarekere	13 53	30 76 do

The yearly rainfall at Magadi for 16 years commencing with 1901, is as follows:—

Year	Rainfall in inches	Year	Rainfall in inches
1901	35 15	1909	35 50
1902	26 57	1910	41 38
1903	49 67	1911	26 99
1904	27 28	1912	43 29
1905	22 86	1913	32 82
1906	45 98	1914	20 65
1907	32 06	1915	32 01
1908	31 76	1916	54 95

(N. B.—Similar figures of Solur have not been given in the report.)

When analysed, the foregoing statistics show that at Magadi there were—

2 years of 45 to 50 inches of rainfall
2 years of 40 to 45 do
2 years of 35 to 40 do
1 years of 30 to 35 do
3 years of 25 to 30 do
and 2 years of 20 to 25 do

16 years

Out of 16 years, there were only two years of less than 25 inches of rainfall, whereas there were 11 years of more than 30 inches. In other words, there were 11 good, 3 moderate and 2 unfavourable years. It may therefore be stated with some confidence that the taluk has on the whole a good rainfall. The supply is received chiefly during the south-west monsoon, the north-east contributing only about a third of the total. But the latter is none the less important, as it helps materially in the making of the store required for the hot weather.

In the south, near the hills, the rainfall is somewhat heavier than in the north.

7. *Climate.*—The climate is good and healthy in the open parts of the taluk, resembling that of Bangalore. But in the jungle tract of the Madabal hobli, fever of a bad type is said to prevail in the cold season. This is the only hobli considered unhealthy in the taluk, though even here an improvement seems to have taken place in recent years, as much of the jungle has been thinned out for purposes of fuel, an article of daily transport to Bangalore. In point of excellence of climate, the Solur Hobli ranks first, then follow in order Tipsandra, Kudur, Magadi and Madabal hoblis. The taluk is, in common with other parts of the State, subject to the outbreak of epidemic diseases, of which the most fatal is the plague. Lung and bowel affections, malaria and small-pox claim a moderate reckoning.

No. R. 5453-64—L. S. 42-18-4, dated 30th October 1920.

8. *Crops and cultivation.*—In dry lands, the chief crop is *ragi* ; next in importance is *avare*, which, however, is rarely raised as an independent crop ; it is usually sown in between rows of *ragi*. Other products are gram, *togari*, oil-seeds and condiments.

Wet lands are cultivated mostly with paddy, of which the common varieties are *maralakanti*, *doddi* and *billisanna*. A second crop of paddy is raised on some of the lands under the more important of the tanks in the years of good rainfall. Sugar-cane is grown in patches the size of each being determined by the capacity of the tank above it. The Kudur, Tipsandra and Solur Hoblis show more of it than the rest of the tract.

Gardens are generally of a miscellaneous character containing *Panvel*, plantain and vegetables, with a few cocoanut, arecanut and other fruit trees, chiefly the jack. Sugar-cane is often grown on lands classed as garden. There are, however, some good *Dhruvapairu* gardens in the north-west of the taluk, but these are alleged to have deteriorated either by the loss of the trees, or the waning productivity of the older ones. Of the garden products, cocoanut, areca and plaintain scarcely go out of the taluk, but betel leaves are grown in quantities large enough to admit of export to Bangalore. On the whole, gardens do not play such an important part in the economy of the raiyats here, as they do in many other maidan taluks. The mulberry once paid the grower handsomely, but the decline of the old silk industry is responsible for the lack of keenness in mulberry cultivation. I think, however, that there are at present some signs of a revival.

The supply of manure falls far short of the demand ; what is available is generally appropriated to lands under sugar-cane and paddy. Even the *Dhruvapairu* gardens are not well manured ; fresh earth spread over once in two or three years serves instead.

Compared with the raiyats of the adjoining taluk of Nelamangala, the raiyats of Magadi are more hard-working. They take a good deal more of trouble in the annual dressing of their lands. Nevetheless, it must be observed that the raiyat has made little advance in matters of agriculture. He continues unremittingly to cultivate the same bit of land with the same kind of crop, which he considers to be the only successful method. He does not seem to bestow even a passing thought on the advantages of rest to the soil, exposure to sunshine, or rotation of crops. With more of practical demonstration nearer his home, matters ought to improve in this direction.

The average yield per acre, as given in the Taluk Hand-book, is as follows :—

Crop	Average yield per acre	Price per palla or maund	Value of crop
		Rs. a. p	Rs. a. p.
Ragi	13 pallas ...	8 8 0	110 8 0
Paddy	5 pallas ...	8 0 0	40 0 0
Other dry crops ..	1 palla ...	16 0 0	16 0 0
Gram	2 pallas ...	10 0 0	20 0 0
Oil seeds	1 palla ...	13 0 0	13 0 0
Sugar-cane	150 maunds of jaggery	2 0 0	300 0 0
Arecanut	5 maunds ...	9 0 0	45 0 0
Cocoanuts	1,000 ...	6 4 0 per 100	62 8 0
Mulberry	½ maund ..	120 0 0	60 0 0

In the above estimate, the ragi crop seems to have been over-estimated, and paddy, gram, oil-seeds and other dry crops, rather under-estimated.

No. R. 5453-64—L. S. 42-18-4, dated 30th October 1920.

The percentage of the area under the different kinds of crops in the taluk, is as follows :—

Ragi	79·56
Gram	7·66
Rice	8·94
Other cereals	6·08
Sugar-cane	0·46
Oil seeds	2·33
Condiments	0·05
Garden produce	1·25
Other food crops...	0·67
Non-food crops	2·00
Total ...o	100·00

9. *Irrigation.*—Irrigation depends solely on tanks and wells, for the construction of which the country is well suited. There are, in the tract, 202 tanks, of which 21 are major and 181 minor. Nineteen major and 43 minor tanks, or 62 tanks in all, have been restored. The most important of the tanks are those at Kempasagara, Hulikal, Mayasandra, Sankighatta, Tipsandra and Narasandra. The Sankighatta tank, which was out of repair at the time of the original settlement, has since been restored. These tanks do not as a general rule dry up in the hot weather.

Of 1,533 wells, 658 are used for irrigation. Most of them are inexpensive mud holes. There are no *Kapile* wells.

10. *Communications.*—There is no railway line running within the taluk itself, but the three railway stations of Gollahalli, Closepet and Bangalore are not remote from its borders. The taluk is well supplied with made roads, of which the old ones are—

(1) The Bangalore-Mangalore road,
(2) The Bangalore-Huliyar road, and
(3) The Magadi-Kunigal road.

Two new roads, connecting Magadi with Closepet on one side, and with Gudemaranhalli on another, have been opened since the original settlement. Some good roads for wheeled traffic have also been opened under Village Improvement Scheme, one of which leads from Solur to Banavadi. Inter-communication between villages is well-established by numerous cart-tracks, and is tolerably easy, except when heavy rains make the hill streams flow strong.

11. *Markets.*—Weekly markets are held in five places, *viz.*, Magadi, Kudur, Tipsandra, Motaganhalli and Chakrabhavi ; the transactions effected in these, ranges in value from Rs. 200 to Rs. 500. They serve to supply only local needs ; Bangalore, the most important trade centre in the State, is within easy reach, and affords facilities for trade in bulk.

12. *Fairs and Festivals.*—Two important Jatras are held in the taluk, in the summer season, one at Tirumale, a suburb of Kasba Magadi, and the other at Sugganahalli. Food without payment which is offered on religious grounds may be one of the attractions during the festival at Tirumale, where the congregation is said to number 30,000. At Sugganahalli, which is in a remote corner of the taluk, the festival is not so largely attended, and cannot count more than 8,000 persons. The special feature of the two festivals consists in the cattle fair held in connection with them. A large number of cattle, over 10,000, are exhibited at these fairs, which attract customers even from distant parts of southern India, who buy up the best of them at unusually large prices. All kinds of cattle are brought over, and the raiyat has a large field for selection according to his wants and means. Petty traders, especially the confectioners, run a vigorous trade during the time.

The Ranganathaswami temple at Tirumale is the largest institution of its kind in the taluk. Another large temple, that of Someswara to the west of Kasaba Magadi, is now in ruins.

13. *Exports and Imports.*—The chief articles of export are ragi, paddy, gram, castor, tamarind, *Honge* and *Ippe* seeds, potatoes, and brass lamp-stands; the imports are rice, chilli, wheat, black-gram, ground-nut, arecanut, sugar, kerosene oil, salt, cocoanut, tobacco and cloth.

No. R. 5453-64—L. S. 42-18-4, dated 30th October 1920.

14. *Manufacture and Industry.*—The iron industry of the crude type carried on at one time, has died out. Brass lamp-stands and musical instruments, (Veena and Tambur) are manufactured by a few persons in Magadi. For musical instruments, the demand is poor, although the articles prepared are considered to be good in quality and finish. There are about half a dozen men at Tirumale, who manufacture them. About 20 men are engaged at Kasaba Magadi in the making of brass-lamps; this trade is better patronised. The ordinary hand-loom weaving is carried on in many places, and a number of such looms may be seen in Magadi, Tirumale and Kudur. Besides these, blacksmiths, goldsmiths and potters, ply their humble trade in several villages. There are 415 cotton, 100 silk and 39 wool looms in the taluk, and 40 sugar-cane and 95 oil-mills.

15. *Population.*—According to the enumeration made by the classers during the original operations in 1877-78, the population of the taluk was 42,696, but in giving this figure in the original settlement report, it was observed that during the period, which was one of severe famine, many of the inhabitants had died or disappeared. The census of 1881, which closely followed the settlement, ascertained that the population had dwindled from 68,605, the number recorded at the previous census of 1871 to 40,344. The famine according to the census, was thus responsible for the loss of as many as 28,261 souls. The subsequent history is one of steady improvement, as will be seen from the following table:—

	Population.
According to the Census of 1871	68,605
Do 1881	40,344
Do 1891	50,968
Do 1901	62,232
Do 1911	67,790

The taluk has now recuperated the loss almost fully, and possesses a population of 245 per square mile of the gross area, and of 452 per square mile of the occupied area, on an average.

16. *Agricultural resources.*—A comparative statement of agricultural resources, past and present, is given below:—

Items		At the time of original survey	At re-survey.	Increase or decrease	Percentage of increase or decrease
Houses ...	Tiled	1,069	2,187	+1,118	+105
	Mud	6,340	9,726	+3,386	+ 53
	Thatched	2,191	2,949	+ 758	+ 35
	Total	9,600	14,862	+ 5,262	+ 55
Cattle		53,844	65,961	+12,117	+ 23
Carts		1,183	2,301	+ 1,118	+ 95
Ploughs		7,778	10,446	+ 2,668	+ 34
Wells ...	Irrigation	...	658	..	...
	Others	...	875	.	...
		1,533			

Houses of all kinds have increased, the most noticeable increase being in the tiled variety, which has more than doubled itself. An addition of 23 per cent is observed in the stock of cattle, which probably suffered more grievously than human beings during the famine. Carts have increased by so much as 95 per cent, a good indication of the demand for means of transport. Ploughs also have increased well, by 34 per cent. These items, however unimportant they may appear to persons accustomed to larger and higher economic conditions, have their own significance in the rustic area. It is satisfactory to note that the taluk is now much more resourceful than it was at the time of the original settlement.

17. *Cattle.*—Cattle are in a fairly good condition and are well cared for. The increasing demand for good cattle, as well as the spirit of emulation evoked by the holding of fairs and exhibitions, have contributed, not a little, to greater attention

being paid to the preservation, if not the improvement, of their breed. Besides large cattle, sheep and goats are seen all over the taluk, especially in the northern part. The rearing of these animals is lucrative enough, as the herds are in good demand for manure, and can be sold at very remunerative rates in Bangalore whenever money is wanted.

18. *Leases.*—The major portion of occupied lands is cultivated directly by the holders themselves. Where lands are sub-let, the system of lease is generally *Vara*, according to which the cultivator takes a half of the produce and gives the other half to the landlord, who pays the Government dues. The *Mukkuppe* and *Aregoru* systems, which allow a greater share of the produce to the cultivator, are prevalent in villages where the demand for land is not very strong.

19. *Value of land.*—An idea of the value, at which lands are appraised, may be formed from the following statement, which is a compilation made from the books of the Registration Department:—

Transactions	Number	Amount fetched	Total Survey assessment	Ratio
		Rs.	Rs.	
Sales	1,082	1,21,775	7,300	17 times the assessment.
Mortgages	985	1,33,095	9,369	14 do

In sales outright, lands fetch a value of 17 times the assessment, and in mortgages, a loan of 14 times the assessment. Wet lands under important tanks, such as Kempasagara and Hulikal, are valued the most. I am informed that a bit of wet land under the Kalya tank was sold at Rs. 1,000 per acre. Good lands fetch excellent prices in this taluk.

20. *Prices.*—Statistics of prices for the years from 1852-53 to 1876-77 are given in the original settlement report for five important articles, *viz.*, rice ragi, kulthi, jaggory and supari. Prices were abnormal in 1876-77 on account of the famine, and for that reason, cannot be compared with the prices under normal conditions. The prices of the year preceding are therefore taken and compared in the following statement with those of the year 1914-15, the latest year for which statistics have been obtained from the taluk.

Year	Seers per rupee			Rs. per maund	
	Rice 2nd sort	Ragi	Kulthi	Jaggory	Supari 2nd sort
				Rs. a. p.	Rs. a. p.
1875—76	11	35	24	1 7 4	4 15 8
1914—15	6	20	12	2 8 0	8 14 3
Percentage of increase ...	+83	+75	+100	+71	+66

No. R. 5453-64—L. S. 42-18-4, DATED 30TH OCTOBER 1920.

Another statement is given below, showing the course prices have taken from the year 1890-91, the oldest year for which statistics are available in the Taluk Office:—

Year	Seers per rupee									Rs. per maund		Coconuts per 100
	Ragi	Rice 1st sort	Rice 2nd sort	Cheuna	Kulthi	Togari	Huchellu	Avare	Castor	Jaggery	Supari 2nd sort	
										Rs. a. p.	Rs. a. p.	Rs. a. p.

Average ...	16	5	6	7	10	7	8	7	10	4 9 8	11 1 7	5 2 0

These figures show that generally prices have nearly doubled themselves. The existing war conditions have raised prices to such an abnormal extent as to necessitate the interference of Government for controlling them in the interests of the people at large. No political seer dare venture to make a confident forecast of the effects of the economic among other forces, which may be released upon the world after the war.

21. *Labour and Wages.*—There are both skilled and unskilled labourers in the taluk, but their number is not large. A skilled labourer earns between 12 annas and 1 rupee per day; the wages of an unskilled man are 4 annas in villages, and 6 annas in and near the *Kasba*.

22. *Resurvey.*—There were 18,090 survey numbers according to the original survey; during resurvey, 2,086 new survey numbers were formed, raising the total

to 20,176 survey numbers. The following statement compares the areas of the different classes of land as ascertained during resurvey with that recorded formerly:—

Description of land	Area according to original survey accounts	Area according to resurvey	Difference + or —
	Acres	Acres	
Arable dry crop land	86,042	85,904	— 138
Garden land	2,528	2,576	+ 48
Wet land	6,938	7,226	+ 288
Unarable land	82,034	81,499	— 535
Total ...	177,542	177,205	— 337

The decrease of 337 acres in the total area is too small to need any explanation. Wet and garden lands show an increase of 336 acres, while there is a decrease of 138 acres in dry land, and of 535 acres in unarable land.

23. *Reclassification.*—Reclassification was confined to the water-supply of wet and garden lands, and was carried out under the rules of 1896. The original valuation of soil was left intact. Where soil had not been classed at the original classification, as, for instance, in large kharab numbers, it was classed for the first time, only if new survey numbers for purposes of cultivation have had to be formed out of them.

24. *Revenue History.*—The detailed statement attached as Appendix I to this report, exhibits the Revenue History of the taluk from the year 1888-89. Figures for previous years are not available in the taluk office for all the villages, and for all the years, so that it is not possible to have a complete compilation of them for incorporation in the statement. We have however, complete statistics for 26 years commencing from the year 1888-89, from which it will be observed that there has been very steady progress in all the three kinds of cultivation, and consequently in the revenue. The occupied lands under 'dry,' 'wet' and 'garden,' which were, respectively, 57,289, 4,994 and 2,223 acres in extent in 1888-89, rose to 75,159, 5,871 and 2,355 acres in 1914-15. The total collections excluding remissions rose from Rs. 92,236 in 1888-89 to Rs. 1,12,714 in 1914-15. The annual remissions which never exceeded Rs. 280 are made up almost entirely of such items as Remission for Chauthai and Shraya lands, and for lands taken up for public purposes. I think ought to be said that the Revenue History of the tract is one of a very encouraging kind, and speaks eloquently of the leniency of the old settlement. I append below an abstract of Appendix I which will readily show the course of cultivation and of collection in the taluk:—

Year	Government occupied land								Remission	Amount realized	Percentage of increase or decrease as compared with the year 1888-89
	Dry		Wet		Garden		Total

25. *Grouping.*—Having thus far compared the existing circumstances of the tract with those of the past, I shall now proceed to the object of this report, the devising of a settlement afresh that will suit the altered circumstances. As there is no good reason for effecting any changes in the existing grouping of villages, this will be adhered to for the purposes of revision. We shall accordingly continue to have—

133 villages in the 1st group, advantageously situated as regards communications and markets,

69 ,, in the 2nd group, touching the 1st group, though not quite so well situated,

30 ,, in the 3rd group, consisting of villages in the north touching the Tumkur Taluk where communications are inferior, rainfall also slightly inferior, and of villages to the south amongst the broken unhealthy country south of Savandurga.

26. *Maximum rates.* (1) *Dry.*—The old maxima are Rs. 2-4-0, Rs. 2-0-0 and Rs. 1-12-0 for the several groups. I now propose to increase each of these by 4 annas.

(2) *Wet.*—Wet maxima are Rs. 8-0-0 for the first and the second groups, and Rs. 7-8-0 for the 3rd group. These will be increased by 8 annas each.

(3) *Garden.*—The old maximum was Rs. 15 for tank fed gardens, which I have reduced for revision purposes to Rs. 12. The other kinds of garden will receive the still more liberal treatment prescribed for them in the rules of the 24th January 1902.

The table given below compares the maximum rates adopted in the surrounding taluks with those proposed above. I do not believe anything can be urged against my proposals for Magadi Taluk, except perhaps on the score of leniency.

Taluk	Group	Maximum rates						Remarks

No. R. 5453-64—L. S. 42-18-4, DATED 30TH OCTOBER 1920.

A small addition of 2 annas will have been made to the average dry rate of 4 annas 1 pie to the wet rate, while 11 annas 8 pies will have been taken away from the average garden rate. The increase to the total dry assessment will be 12 per cent to the wet assessment, 6 per cent, but the garden assessment will have been reduced by 17 per cent. A net increase of Rs. 10,518 or 9 per cent will occur in the total revenue of the taluk.

28. *Effect on garden lands.*—I show below how the assessing of the gardens has worked out on each of the different classes of garden land.

Number	Description	At original Settlement			As per revision Settlement accounts			Increase or Decrease + or —
		Acres	Assessment	Average rate per acre	Acres	Assessment	Average rate per acre	
				Rs. a. p.			Rs. a. p	Rs. a. p.
I	Tank Garden	765	4,511	5 14 4	856	4,722	5 8 3	—0 6 1
II	Gardens receiving indirect benefit from tank, streams, etc. ..	1,247	4,657	3 11 9	1,222	3,824	3 2 1	—0 9 8
III	(a) Gardens under self-dependent wells	138	415	3 1 11	115	256	2 3 7	—0 14 4
	(b) Gardens as in III (a) but assessed at simple dry rates owing to the failure of wells ..	143	165	3 4 0	161	274	1 11 3	—1 8 9
IV	Old dry cocoanut Gardens a ...	11	53	1 13 1	7	24	3 6 10	—1 6 3
V	New Gardens under wells sunk since the Original settlement whether self-dependent or indirectly benefitted	..	.	...	198	480	2 2 9	...
VI	New dry cocoanut gardens ..	...	.	...	...	...	...	.....
	Total ..	2,299	10,101	1 6 4	2,559	9,580	3 11 7	—0 10 9

Every figure in the statement is intelligible, and shows that it is in complete concord with the principles on which our settlements in maidan taluks are devised. I need therefore waste no time in repeating humdrum explanations.

29. *Comparison of average rates.*—In the next statement are shown the average rates under the settlements in force in the neighbouring taluks, with which the averages now proposed for Magadi Taluk are compared.

Taluk	Average rates			Remarks
	Dry	Wet	Garden	
	Rs. a. p.	Rs. a. p.	Rs. a. p.	
Tumkur	0 13 10	4 3 1	5 2 1	Revised
Nelamangala	1 3 0	4 11 8	4 3 10	Do
Bangalore	1 6 10	4 13 7	5 1 7	Do
Channapatna	0 13 1	4 8 9	3 13 5	Not revised
Kunigal	0 11 7	4 0 0	4 15 1	Do
Magadi	1 3 0	4 3 5	3 10 6	Now proposed

The average rate is on a par with the recently sanctioned rate for Nelamangala Taluk. The comparatively high intrinsic character of the soil in Magadi helps to place the rate distinctly higher than those obtaining in Tumkur and Kunigal Taluks. The incidence of the wet rate is about equal to that prevailing in Tumkur Taluk, but falls considerably short of that of all the other neighbouring taluks except Kunigal, which last however, has not yet been revised. The average garden rate is well below that found in any of the adjoining taluks whether revised or not.

30. *Unoccupied assessed land.*—The next table I give, sets forth full particulars of land not occupied though available. There is not any wet or garden land

to speak of that remains unoccupied. There are however 7,474 acres of dry land which I think I am justified in saying will not all remain uncared for much longer.

Groups	Dry			Wet			Garden			Total		
	Acres	Assessment	Average rate	Acres	Assessment	Average rate	Acres	Assessment	Average rate	Acres	Assessment	Average rate
			Rs. a. p.			Rs. a. p.			Rs. a. p.			Rs. a. p.

31. *Conclusion.*—The settlement proposals formulated and the effects they are likely to produce are so simple and easily understood in the case of Magadi Taluk, that I do not expect there will be any difficulty about their acceptance both by raiyats and by Government officers. I now beg that early orders may be kindly passed enabling me to introduce the settlement in good time this year.

32. *Limits of increase.*—The percentage of increase has exceeded the prescribed limit only in the case of the Chikkelur Rampura village No. 98 in Group I. The increase comes to 67 per cent, whereas the limit prescribed is 66 per cent. The fact is that, whereas the extent of occupied land in the village was found by resurvey to be 63 acres of dry, the taluk accounts show the area as only 42 acres. It is this discrepancy of 21 acres and the assessment thereon, which had not been brought on to the revenue accounts, that has produced the excess, and not any excess in the rates adopted for the Revision Settlement. Further investigation will be made in the matter at settlement time as to the omission in the taluk accounts, and necessary action taken.

33. *Cesses.*—The Local Fund and the Irrigation cesses will be additional levies according to the Law on the subject.

34. An illustrative map and the other usual appendices accompany this report.

I have the honor to be,

Sir,

Your most obedient servant,

D. K. DARASHAH,

Superintendent.

APPENDIX A.

Revenue Statement for the 232 villages of the Magadi Taluk of the Bangalore District, from 1888-89 to 1914-15.

Revision Settlement of the old Goribidnur Taluk.

No. R. 5440-52—L. S. 41-18-3, DATED 30TH OCTOBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Proceedings No. 1413-24—Rev. 272, dated 11th June 1880, sanctioning the original settlement of the old Goribidnur Taluk in the Kolar District.

2. Letter No. 238, dated 9th May 1919, from the Superintendent of Revenue Survey and Settlements in Mysore, submitting proposals for the resettlement of the taluk referred to above.

(*Printed as Accompaniment I.*)

3. Correspondence ending with letter No. 67, dated 2nd September 1920, from the same officer, forwarding with his remarks the opinions of the Deputy Commissioner and the Revenue Commissioner in the matter.

Order No. R. 5440-52—L. S. 41-18-3, dated 30th October 1920.

The proposals relate to the revision of the assessment of 89 Government villages, of which 82 are in the present Goribidnur Taluk and the remaining 7 in the Dodballapur Taluk.

2. The tract is irregular in shape, measures about 152 square miles and consists mostly of bare plain country, except for little hilly spaces in-the west and south-east. The climate is healthy. The rainfall is poor but cannot be regarded as deficient.

3. The tract is well irrigated by numerous channels drawn from the Pinakini river. There are also a large number of wells, 28 major and 25 minor tanks, all of which (except one minor tank) have been restored.

4. Ragi and jola are the staple dry crops. Rice and sugar-cane are extensively cultivated. Vegetables, turmeric and chillies form the principal garden produce, while sugar-cane and paddy are also raised on garden lands.

5. The taluk is well served with means of communication. The most importan improvement effected since the original settlement, is the opening of the Bangalore-Guntakal Railway, with two stations in the taluk. Three good metal roads have also been added to the pre-existing three important roads. There are, besides, numerous cart-tracks connecting the interior villages.

6. Like the rest of the Kolar District, this taluk also suffered much from the effects of the great famine in 1878. The population went down from 34,404 in 1871 to 25,708 in 1881. Thereafter, it has however been steadily increasing by about 5,000 for every decennium, until it has reached 40,372 in 1911. This marked recuperation is said to be due to a general run of favorable seasons, good soil and facilities of irrigation and communication, etc.

7. The several improvements in the conditions of the taluk referred to above, have naturally increased the agricultural and other resources of the tract. The number of houses, cattle, carts and ploughs have increased by 99, 3, 160 and 82 per cent, respectively since the original settlement. The value of land and the prices of food stuffs, etc., have also correspondingly increased. The revenue history of the taluk is of a very satisfactory nature, due evidently to the leniency of the current settlement.

8. The Survey Superintendent has proposed the following revised rates keeping intact the old grouping of lands under two heads.

No. R. 5440-52—L. S. 41-18-3, DATED 30TH OCTOBER 1920.

Land			Maximum rate per acre		Average rate per acre	
			Original	Revised	Original	Revised
			Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Wet	I	...	8 8 0	8 8 0	5 5 1	5 5 7
	II	...	8 0 0	8 8 0	5 0 3	5 4 2
Dry	I	...	2 2 0	2 8 0	1 0 10	1 3 9
	II	...	1 14 0	2 4 0	0 13 10	1 0 6
Garden		...	16 0 0	12 0 0	5 3 11	4 11 7
General average		...	...	...	2 1 1	2 2 9

The general average rate per acre is increased by Re. 0-1-8 or 5%, thereby resulting in a net increase of Rs. 4,969 per annum, over the present revenue.

9. No objections to the revised rates are said to have been received from the raiyats in response to the preliminary notifications of resettlement published in the concerned villages. The Sub-Division Officer, Chikballapur, and the Deputy Commissioner, Kolar District, consider that the proposed wet and dry maximum rates for the villages in the second group may be reduced by four annas each, but the Revenue Commissioner does not support the reduction recommended above. He is agreeable to the revised rates proposed by the Survey Superintendent, but suggests that the classification of lands under wet and garden may be revised as certain lands in the Chikballapur Taluk which should properly come under the former class are said to have been included under the latter. The Survey Superintendent, however, has assured Government that every care has been bestowed on the matter and that, if necessary, individual cases of real hardship will be duly readjusted at the time of announcing the revised rates.

10. The revised rates proposed by the Survey Superintendent are in keeping with those prevailing in the adjoining tracts and must also be considered as commensurate with the appreciable improvement of the agricultural and other resources of the taluk during the currency of the present settlement. Government are therefore pleased to sanction in their entirety the said revised rates which will be announced as soon as possible and brought into effect from the year 1921-22 with the usual guarantee of thirty years.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Superintendent, Revenue Survey and Settlements in Mysore.
The Revenue Commissioner in Mysore.
The Director of Agriculture.
The Comptroller to Government.
The Secretary to Government, Departments of Education and Agriculture.
The Deputy Commissioner, Kolar District.
The Deputy Commissioners of other Districts.
PRESS TABLE.

Exd.—C. R.

No. 5440-52—L. S. 41-18-3, DATED 30TH OCTOBER 1920.

(ACCOMPANIMENT.)

I have the honor to submit proposals for revising the rates of assessment in the old Goribidnur Taluk, which was brought under survey settlement under the sanction of Government conveyed in their Proceedings No. 1413-24—R. 272, dated 11th June 1880.

2. *Constitution.*—The taluk then consisted of 102 Government villages, but as 13 of these were since absorbed in adjoining villages, there are only 89 villages now, of which, according to the present constitution of taluks, 82 are in the Goribidnur Taluk, and 7 in the Dodballapur Taluk.

3. *Boundaries.*—The taluk is bounded on the north by the Maddagiri Taluk of the Tumkur District, and by the Hindupur Taluk of the Anantapur Collectorate; on the east, by the late Gudibanda and Chikballapur Taluks of the Kolar District; on the south, by the Dodballapur Taluk of the Bangalore District; and on the west, by the late Koratagere Taluk of the Tumkur District.

4. *Physical features.*—The taluk is irregular in shape; its length from north to south is about 25 miles, and its breadth from east to west varies from 5 to 12 miles. In area, it measures about 152 square miles. The country is plain, except for a space in the west and the south-east, where the terminal spurs of the Maklidurga and the Nandi Hill ranges make the surface rough. Entering the taluk through the narrow valley between these two ranges, we come upon a sudden drop into a low expanse in the basin of the Uttara Pinakini, a river which takes its rise in the Nandi Hills, pierces the taluk near Varvani, and flows towards the north. The lie of the country on either side is towards the river, into which the drainage of the Varvani, Thondebhavi and Hosur Hoblis is led by the Bandi Halla, the Jangli Halla and the Kumudvati. All these streams run on wide sandy beds, which for the most part of the year are dry at the surface. They come down in sudden freshes for two or three days at a time, that is, whenever there is a heavy rainfall on the hills, and then quickly dry up. The taluk is not rich in trees, and contains no good forest. On account of the scarcity of fuel in Bangalore, many of the raiyats particularly those of the Thondebhavi Hobli, are tempted to sell the trees on their lands, chiefly *Jali* and *Honge*, which are being cut down and exported. This circumstance tends to deplete the already poor stock of trees. Date trees abound in all the uncultivated lands, and for that reason the taluk happens to be one of the important toddy supplying centres in the State.

5. *Climate.*—The country being low in level, the climate is warmer than in the adjoining taluks, but it is quite healthy. People are not afflicted with disease to any serious extent, excepting during the outbreaks of epidemic disease that usually find entry into such parts of State as possess good means of communication.

6. *Rainfall.*—Goribidnur is the only rain-gauge station within the tract, and the rainfall recorded there shows an annual average of 25·58 inches, based upon the observations of 46 years from the year 1870. The fall in 1916 was so high as 42·88 inches. The average monthly record shows that the south-west monsoon gives more rain than the later monsoon. August and September are months of the heaviest rainfall. The following statement compiled from the report on Rainfall Registration, gives the quantity of rain recorded at Goribidnur for 28 seasons commencing with the year 1889.

YEAR.	RAINFALL. Inches.
1889	33·63
1890	43·60
1891	18·96
1892	25·20
1893	27·42
1894	17·85
1895	33·25
1896	21·44
1897	31·35
1898	38·88
1899	17·46
1900	22·76
1901	26·52
1902	28·08
1903	43·09
1904	21·85
1905	21·96
1906	29.17
1907	24·10

No. R. 5440-52—L. S. 41-18-3, DATED 30TH OCTOBER 1920.

YEAR.			RAINFALL.
			Inches.
1908	...	...	17·60
1909	...	...	34·92
1910	...	...	39·19
1911	...	...	20·75
1912	...	...	31·71
1913	...	...	32·42
1914	...	...	17·79
1915	...	...	32·36
1916	...	...	42·88

Though the taluk lies within the famine zone, and has experienced partial droughts, it cannot be said that anything like the famine of 1877-78 ever afflicted it since the introduction of the original settlement. Assuming 25 inches to be a normal and sufficient rainfall for the tract, there were 17 seasons out of 28 in which the rainfall was above the average, and 11 in which it was below it. In a region such as the one in question, I think it would be fair to say that a distinctly unfavourable season (though not one of famine or of very severe scarcity) would be one in which less than 20 inches of rainfall. On such an assumption, 5 years out of 28 were unfavourable in Goribidnur Taluk.

The rainfall recorded at the nearest of the stations outside of the limits of the tract is compared below with the fall at Goribidnur.

STATION.		RAINFALL IN 1916.	AVERAGE.	
Goribidnur	...	42·88	25·58	for 46 years.
Chikballapur	...	36·34	31·10	Do
Gudibanda	...	41·59	30.08	Do
Holavanhalli (Koratagere Sub-Taluk)		29·61	23·61	for 20 years.
Saealu (Dodballapur Taluk)	...	27·65	24·44	for 11 years.
Dodballapur	...	42·34	29·03	for 46 years.

7. *Soil.*—A large variety of soil is met with in the taluk, varying from inferior red to deep black. In high-lying lands, the soil is generally lighter in colour with a mixture of sand; but in the lower levels and especially in the neighbourhood of the Pinakini the soils are either of a superior brown or black colour. Irrigated soils are usually of a high order, rich and friable and well suited for garden crops, sugar-cane or paddy.

8. *Irrigation.*—The taluk is exceptionally fortunate in possessing good resources of water-supply. There are channels drawn from the Pinakini and other streams, and there are good tanks and excellent wells. Water is available almost everywhere at moderate depths; hence the large number of wells. Speaking of channels, it is appropriate to quote the following passages from the original settlement records, which, besides being an accurate description of the subject, holding good at this day, serves to show how much can be accomplished by co-operation among villagers having identical interests:—

"From the Pennar River alone, 19 channels irrigating lands in 22 villages are taken. These channels are simply ditches cut by the villagers from the river at a higher level. They have no built sluices or other masonry work about them, and of course cannot stand comparison in any respect with regular channels, such as those, for instance, of the Cauvery; still they are most useful and cost Government nothing. They cost the raiyats, though, a good deal of time and labour in repairs and in keeping them running after January, when the rivers all but dry up and long deep ditches have to be cleared out in their sandy beds to collect the water. There is regular organised system of village labour for this work, each holder of land under a channel having to furnish his share of labour in men and bullocks for it. The turning out of this labour and the general management of the water-supply is vested in some well-to-do raiyat in the village, called the 'Gurha', who in case of a contumacious villager refusing to give his share of labour, abuses, fines him or cuts off his water till he gives in. The whole is entirely a village affair, Government in no way interfering. Water is also taken from these streams by Kaple (*i.e.* a leather bucket raised by bullock power). These can be used all through the hot weather, as even when the water dries away from the banks, it is always easily get-at-able by sinking holes in the sand a foot are so."

There are 28 major and 25 minor tanks in the taluk; all of these, except one minor tank, have been restored. Among the more important of them are the tanks at Sonnaganhalli, Hosur, Mudagere, Gedare, Myala, Gangasandra-Hosakere, Gangasandra, Madagankunte, Kurubarahalli, Saganahalli, Kenkere, Bommasandra, and Kachamachanahalli. The general condition of tanks is good on the whole.

No. R. 5440-52—L. S. 41-18-3, DATED 30TH OCTOBER 1920.

There are numerous wells along the banks of the Pennar and its tributaries, irrigating large areas of land. Kapile-irrigation is one of the characteristic modes of husbandry in the taluk, very commonly resorted to for growing the Vaisakh paddy known es *Kapile Sanna Bhatta,* as well as for the ordinary garden crops.

Two irrigation pumps, worked by oil engines, recently installed (one at Hudavati-Nagasandra and one at Potenahalli) are said to be working satisfactorily.

9. *Crops and Cultivation.*—On dry land, the staple crop is *ragi*; other products are *haraka, navane, save, togari, kulthi. avare, harlu, huchellu,* and *jola.* Dry crops (mainly ragi and jola) are raised on wet lands, when the water supply is estimated to be insufficient for paddy.

Rice and sugar-cane are extensively cultivated under tanks, channels and wells. The taluk is noted for its excellent crop of sugar-cane, particularly the neighbourhood of Manchenahalli. Inquiry seems to show that the net profit of cane cultivation averages not below Rs. 200 per acre. The natural facility for irrigation and the composition of the soil are points so favourable, that the raiyat's attention is very largely devoted to the cultivation of irrigated lands which are highly manured to make up for exhaustion due to unintermittent cultivation.

In lands classed as garden, sugar-cane and paddy are also grown with the help of the *kapile.* The miscellaneous garden crops are usually vegetables, turmeric and chilli. In *Dhruvapairu* gardens, of which the best are found in Varvani, cocoanut and areca are grown with the plantain and the betel; *supari* is not grown in any considerable quantity, nor is the nut produced in the taluk of a superior kind.

The cultivation of tobacco has attracted the attention of the raiyats in the Hosur Hobli it being more remunerative than most other ordinary crops.

The ganja required by the Excise Department is stated to be nearly all grown in parts of Kallodi, Hudavatinagasandra and Dodkurugod villages.

The estimated average yield per acre of important crops is given as follows in the Taluk Hand Book.

Ragi	..	3½ Khandis of 160 seers each.
Jola	..	6 Do
Kulthi	..	1½ Do
Bengal gram	..	2 Do
Oil seeds	..	5 Do
Paddy	..	8 Do
Sugar-cane	..	200 maunds of jaggory.

The percentage of the area under the different kinds of crops is as follows :—

Jola	1·09
Wheat	·03
Ragi	63·00
Gram	10·31
Rice	4·36
Other cereals	10·08
Cotton	·04
Oil seeds	4·68
Tobacco	·59
Condiments	·94
Garden produce	1·06
Sugar-cane	3·44
Food	·34
Non-food	·04
Total	100·00

10. *Communications.*—Good metalled roads radiate from the town of Goribidnur in the cardinal directions. The grand trunk road from Bangalore runs right through the taluk, to Hindupur, with branches to the right and the left. The roads that existed at the time of the original settlement or the Bangalore-Hindupur road, the Goribidnur-Gudibanda road, and the Goribidunur-Chikballapur road. New roads opened since then are the Goribidnur-Hosur-Maddagiri road, the Thondebhavi-Maddagiri road, and the Thondebhavi-varvani road, which is being extended to Manchenahalli. The most important of the improvements effected after the original settlement is the opening of the railway in 1893, connecting Bangalore with Guntakal, which runs almost in a line with the Bangalore-Hindupur road from south to north. There are two stations, Thondebhavi and

No. R. 5440-52—L. S. 41-18-3, dated 30th October 1920.

Goribidnur, within the limits of the tract, and two stations, Makalidurga and Dodkurugod, outside but close to the frontiers. The taluk is on the whole very well served with means of communication. Besides the highways described above, there are of course numerous cart-tracks connecting the villages in the interior, and serving nearly as well as made roads excepting during heavy rains.

11. Markets.—Weekly markets are held at Goribidnur, Hosur and Thondebhavi; but these are quite modest in character, and serve chiefly to supply the needs of the neighbouring villages. The transactions do not at any of these exceed Rs. 500 in value. The shandies at Manchenahalli and Hindupur, outside the limits of the taluk, are on a comparatively large scale. The raiyat takes very little trouble in the disposal of his surplus, as merchants send their agents round to the villages to buy up all the available products.

12. Fairs and festivals.—There are none within the taluk, worthy of note. An important annual fair is however held near the Subramanya Temple at Makalidurga close beyond the south frontier, where thousands of cattle are brought for sale from the Bangalore, Kolar and Tumkur Districts.

13. Exports and imports.—The chief articles of export are chilli, tobacco, jaggory, groundnut, turmeric and brinjal. Those of import are *rice, ragi, Jola, kulthi, dal, supari, copra,* pepper, sugar and cloth.

The following statistics, extracted from the Taluk Hand Book, gives a rough idea of the character of the trade in the taluk : the figures however refer to the taluk as at present constituted, which is larger in area than the tract under report:—

Exports.	Quantity.	Value.
		Rs.
Chilli ..	2,000 Mds.	10,000
Tobacco ..	500 ,,	3,500
Groundnut ..	15,000 ,,	12,000
Jaggory ..	1,50,000 ,,	300,000
Turmeric ..	10,000 ,,	15,000
Brinjals ..	2,500 bags	2,500
		3,43,000

Imports.	Quantity.	Value.
Rice ..	360 Khandis	8,360
Ragi ..	10,000 ,,	1,20,000
Wheat ..	20 ,,	480
Jola ..	400 ,,	4,000
Bengal gram ..	25 ,,	600
Horse gram ..	500 ,,	8,000
Black gram ..	15 ,,	375
Green gram ..	20 ,,	500
Dal ..	30 ,,	900
Arecanut ..	300 maunds	3,000
Coffee ..	20 ,,	300
Dry Cocoanut ..	120 ,,	600
Pepper ..	150 ,,	1,500
Sugar ..	250 ,,	1,000
Yarn ..	5 bales	420
Cloth ..	,,	24,000
		1,74,035

14. *Manufacture and industry.*—There are no manufactures of any note. The sugar factory opened at Goribidnur by the now defunct Arbuthnott Company has ceased to work. Hand looms for the manufacture of *Kamblies* and coarse cotton cloth, are worked in a number of villages ; there are in all, 278 of them. There are also 96 wooden mills for pressing seeds for oil, and 29 goldsmith shops.

15. *Population.*—The following are the statistics of population, compiled from the several Census Reports, for the villages under report:—

	Population.
According to the Census of 1871	.. 34,401
do 1881	.. 25,708
do 1891	.. 31,870
do 1901	.. 36,792
do 1911	.. 40,372

No. R. 5440-52—L. S. 41-18-3, dated 30th October 1920.

Like the rest of the Kolar District, this taluk suffered severly at the great famine of 1877-78, an event that preceded the introduction of the original settlement. The results of the census of 1881 showed that there was a decrease of 8,696 souls. Thereafter, the population steadily increased by about 5,000 at every decennium, so that within two decades the taluk recouped the famine loss, and in the year 1911, was able to show an increase of 5,968 persons over the population in 1871. The density works out to 480 per square mile of arable land, and 265 per square mile of the gross area. A general run of favourable seasons, the fertility of the soil, the comparatively easy reach of the water springs, a good climate, extensive waste lands available for grazing and cultivation, and immigration from the bordering British territory, have contributed to the steady growth of population.

16. *Agricultural resources.*—The following is a comparative statement of the agricultural resources, past and present :—

Items		At the original survey	At resurvey	Increase or decrease	Percentage of increase or decrease
Houses	Tiled ..	13	53	+ 40	+ 308
	Mud ..	3,162	6,086	+ 2,924	+ 92
	Thatched ..	1,289	2,766	+ 1,477	+ 115
		4,464	8,905	+ 4,441	+ 99
Cattle		34,207	35,241	+ 1,034	+ 3
Carts	Halli ..	154	81	— 73	— 47
	Chakra .	243	912	+ 669	+ 275
	Waddar ..	..	40	..	..
		397	1,033	+ 636	+ 160
Ploughs		2,857	5,191	+ 2,334	+ 82
Wells	Irrigation ..	Figures not available	879		
	Others ..		389		
			1,268		

Consistent with the increase in population, there is an increase of 99 per cent in the number of houses, of 160 per cent in the number of carts, and of 82 per cent in the number of ploughs. A slight increase of 3 per cent is observed in the number of cattle ; the increase would have been greater but for the fact among others that the less serviceable of them are being sold off to butchers as fast as circumstances would permit. There are as many as 1,268 wells, of which a large majority (879) are used for irrigation. The resources of agriculture must be said to be ample, and have considerably improved since the original settlement.

17. *Cattle.*—Cattle of a superior kind are required for agriculture in this taluk. Bullocks are worked at the *Kapiles*, and at the scooping of channels in the beds of streams. The abundance of the *Regur* itself is a fact necessitating the employment of strong cattle for the plough. The raiyat finds that the investing of means in purchasing cattle of good breed, pays well, his ability to operate upon pretty large areas of land depending upon the number of good bullocks he is able to take and to keep. Cattle of the superior kind have however to be imported from outside. The great annual fair at Subramanya near Makalidurga attracts the finest breeds from the neighbouring taluks ; here the raiyat takes his opportunity to buy what he requires and to get rid of the animals that are no longer up to the mark. Sheep and goats are bred mostly in the north-west and the south-east, and these provide the land with excellent manure. Considerable profit is also being made by the breeders at the market of Bangalore.

18. *Modes of husbandry.*—There is nothing to note under this heading that is new or striking. The old methods of agriculture are very generally pursued even at the present day. A few ploughs of the improved pattern have been introduced.

No. R. 5440-52—L. S. 41-18-3, DATED 30TH OCTOBER 1920.

19. *Leases.*—There are many non-cultivating holders of land in this taluk ; in other words, a considerable extent of sub-letting is in vogue. The system of lease is the *wara*, or sharing of produce. The share of the land-lord is generally one-half, but in the case of rice lands growing sugarcane or paddy, it is frequently more. The kandayam is paid by the land-lord; he also pays part of the cost of cultivation when sugar-cane is grown. The majority of the land-lords cultivate their lands themselves.

20. *Value of land.*—Land in the taluk is estimated high, as we should expect from the fact of its fertility and of the relatively easy water-supply. The increase in the price of food grains has operated to enhance the value of land to a very great extent. Good lands at times fetch fancy prices ; there are instances in which so much as Rs. 3,000 has been paid per acre. There is no lack of men, who can afford and are anxious to invest their savings on land here; it is, on the other hand, hard to find sellers of good land. The relation of the assessment to sale and mortgage amounts is shown hereunder and must be admitted to signify high value:—

Description of transactions	Number of transactions	Amount fetched	Total survey assessment	Ratio
		Rs.	Rs.	
Sales	122	26,862	1,708	16 times the assessment.
Mortgages ..	163	64,770	4,614	14 Do

21. *Prices.*—In the original settlement report, the prices of only four important articles, *viz.*, rice, ragi, jaggory and supari, have been given. Leaving out of account the famine years between 1876 and 1878, the prices of these articles in 1874-75 and in 1875-76 are compared below with those of the year 1917:—

Year	Seers per rupee		Rs. per maund	
	Rice	Ragi	Jaggory	Supari
1874-75	14	43	1 2 10	8 12 0
1875-76	14	32	1 2 8	9 9 4
1917	6	14	2 0 0	12 0 0

The progress of prices in the post-settlement period commencing with the year 1880, is shown in the following statement in respect of the important agricultural products.

	Ragi	Rice	Cheuna	Kulthi	Gingelly	Hesaru	Black gram	Dal	Huchellu	Jola	Avare	Castor	Supari, 1st sort	Supari, 2nd sort	Jaggery	Chilli	Cocoanut per 100

No. R. 5440-52—L. S. 41-18-3, DATED 30TH OCTOBER 1920.

No lengthy comment is needed in explanation of the foregoing details. It is an undisputed fact that prices have risen very considerably. It is not easy to foretell what the conditions of trade will be after peace conditions are fully established in the world; but whatever they may be, one thing is practically certain, and that is that the prices of agricultural produce cannot return to any thing approaching the very low levels of 35 years ago.

22. *Labour and wages.*—There does not appear to be any regular class of agricultural labourers in the taluk. Relatives and dependents of land-holders when not actually engaged on their own fields, are available for help, but the supply of labour is after all, not of a certain character. The prevailing rate of wages is from 4 to 5 annas a day per man, and from 2½ to 3 annas per woman or boy. Skilled labourers generally earn a rupee a day.

23. *Resurvey.*—The sub-division of lands, during resurvey has added 1859 to the number of fields,—a small addition, because of the smallness of the taluk itself, which after resurvey was found to contain only 13,931 fields. The areas of the different classes of land by resurvey, are compared below with the areas as recorded in the original akarbands:—

Description of land	Acres according to former survey	Acres according to resurvey	Difference
Arable dry crop land ..	44,155	42,883	— 1,272
Rice or wet land	4,975	4,585	— 390
Garden land	5,934	6,588	+ 654
Unarable land	42,111	43,514	+ 1,403
Total ..	97,175	97,570	+ 395

The difference of 395 acres in the total area is negligible. Against the decrease of 390 acres under wet lands, there is an increase of 654 acres under 'garden,' to which class some of the dry lands also have been converted. The large decrease of 1,272 acres under arable dry lands is accounted for by the fact of a large extent having been included in new made forests.

24. *Reclassification.*—Reclassification of water-supply to wet and garden lands was carried out under the rules of 1896. The old valuation of the soil was left undisturbed, except where it had to be classed for the first time in the cases in which old kharab was brought over to the list of cultivable land, in pursuance of the wishes of the raiyats or for any other equally good reason.

25. *Revenue History.*—The statement contained in Appendix A presents the past Revenue History of the taluk as furnished by the Amildar, commencing from the year of Original Settlement, 1880-81, and brought down to the year 1916-17. There is scarcely any difficulty in arriving at the conclusion, from a perusal of this account, that the old settlement has been one of a very favourable kind to the raiyat, and that, barring fluctuations of a very trivial kind, agricultural progress has been very steadily maintained throughout. I contrast below the area occupied, and the assessment paid, in the first and the last years shown in the statement:—

Year	Dry		Wet		Garden		Total	
	Area in acres	Assessment	Area in acres	Assessment	Area in acres	Assessment	Area in acres	Assessment
		Rs.		Rs.		Rs.		Rs.
1880-81 ..	15,053	15,748	2,649	14,762	4,833	25,859	22,535	56,369
1916-17 ..	28,757	28,203	4,004	20,799	5,214	27,786	37,975	76.788

No. R. 5440-52—L. S. 41-18-3, DATED 30TH OCTOBER 1920.

A perusal of the appendix will leave no doubt that neither of these two years could, with any show of reason, be said to have been exceptional in any way. They are quite in keeping with the years preceding or following. The figures in the remission column are small, and relate entirely to Chauthayi remissions, with the 5 exceptions indicated below. The remissions granted in the taluk are reported to be made up of 2 items only,—Chauthayi remissions, and temporary remissions granted for failure of crops. In only five years within a period of 35 years was any remission of the latter kind granted, and the amounts were, Rs. 5, Rs. 185, Rs. 36, Rs. 766, and Rs 2,434. The last named amount which is considerable, was granted in 1908-09, a year which most of us recollect as a particularly unfavourable one to the belt of country in which Goribidnur taluk is situated. A quinquennial abstract of Appendix A is given hereunder:—

26. *Grouping.*—Coming now to the direct object of this report, we have to see if the old grouping requires any alterations for the purpose of revision. Two groups were made of the villages, at the original settlement, the 2nd group having been considered to

No. R. 5440-52—L. S. 41-18-3, DATED 30TH OCTOBER 1920.

be inferior solely on the ground of lack of communications. Since then, the Railway cutting lengthwise through the tract, and the newly formed road from the Kasaba to Maddagiri, have levelled up the difference. This circumstance could have justified our treating the whole taluk as a single group. But the old difference in the maxima still remains, and has to be reckoned with. Raising the maxium for the first group to the requisite degree, and applying it equally well to the 2nd group, would effect a double enhancement on existing rates in the latter. That step must be avoided, whatever the arguments in justification of it may be. The old grouping will therefore not be disturbed for our present purpose, under which the bulk of the taluk containing 64 villages, coloured pink on the accompanying map, will stand in the first group, and a compact block of 25 villages to the west will continue to form the 2nd group.

27. *Maximum rates.*—For the new settlement I propose to add six annas to the dry maximum of each group. The wet maximum for the 1st group, Rs. 8-8-0, will remain as it is, and an increase of 8 annas will be made only to the maximum of the 2nd group. The maximum for garden will be brought down from Rs. 16 to Rs. 12. The table below sets forth these figures more clearly :—

Groups	Old maximum rates			Revision maximum rates		
	Dry	Wet	Garden	Dry	Wet	Garden
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
I Group ..	2 2 0	8 8 0	16 0 0	2 8 0	8 8 0	12 0 0
II Group ..	1 14 0	8 0 0	16 0 0	2 4 0	8 8 0	12 0 0

28. *Comparison of maximum rates.*—In the next statement the rates as now proposed are compared with revised or original maxima, as the case may be, obtaining in the surrounding talukas :—

Names of taluks	Groups	Dry		Wet		Garden		Remarks

T. = Tank. W. = Well. T.G. = Tank garden. W G = Well garden.

No. R. 5440-52—L. S. 41-18-3, DATED 30TH OCTOBER 1920.

It will be noticed that both the dry and the wet maxima fall short of those recently adopted even for the Gudibanda Taluk. There is a good reason for this: though the low level of the country as compared with surrounding taluks and the character of the subsoil, make for a special advantage to the underground springs, the average rainfall is nearly 5 inches below that of Gudibanda (*vide* last column of the table given in Section 6 above), and this defect has to be borne in mind in dealing with dry and rice lands which derive no benefit from the springs below the surface.

29. ***Effects of revision.***—I shall now give in detail the results produced on each class of land in each of the groups, by the application of the rates proposed:—

Group	Description of land	According to original settlement			According to the proposed revision			Increase or decrease + or —	percentage of increase or decrease in average rates	Remarks
		Acres	Assessment	Average per acre	Acres	Assessment	Average per acre

Two annas and ten pies has been added under these operations, to the average dry rate on occupied land, changing it from the old Re. 0-15-11 to revised Rs. 1-2-9. The average wet rate in the 1st group remains almost stationary, an increase of 6 pies (notwithstanding that the maximum remains) being accounted for by the fact that the improvements made to the tanks in the region within the past 35 years have improved the water-supply to the rice lands to a small extent. The average increase in the 2nd group is Re. 0-3-11 per acre, and this works down to Re. 0-1-3 per acre for the two groups put together. Extreme garden rates have been cut down wherever they were found, the net result being a reduction of the old average by eight annas and four pies or by 10 per cent.

30. ***Details of garden rating.***—The average rate for each kind of garden is shown below and compared with the old rates wherever these are available:—

No	Description	As per original settlement			As per revision settlement			Increase or decrease +or—	Remarks
		Acres	Assessment	Average per acre	Acres	Assessment	Average per acre

	Total ...	5,574	28,695	5 2 4	6,574	30,948	4 11 4	—0 7 0	

No. R. 5440-52—L. S. 41-18-3, DATED 30TH OCTOBER 1920.

The tank gardens which are the most valuable possession of the raiyat in this taluk bear an average rate of Rs. 6-0-9. Indirectly benefited gardens bear an average of Rs. 3-1-7, though they could have been brought nearer to 5 rupees or double the dry maximum under recent Orders—G. O. No. R. 3704-13—L. S. 50-15-5, dated 5th September 1918. This incidentally indicates the caution and the sense of proportion the Settlement Officer brings to bear upon the task of assessing gardens. The old rate of Rs. 3-6-8 on gardens in which wells have failed, has been reduced to Rs. 2-0-3 at revision, which the rate on new well gardens works out to Rs. 2-8-6 or very little more than the maximum dry rate.

31. *Comparison of averages.*—In the following table are exhibited the averages on each class of land, obtaining in the Taluks sur rounding the Goribidnur Taluk :—

Taluk	Dry	Wet	Garden	
	Rs. a. p.	Rs. a. p.	Rs. a. p.	
Maddagiri ..	0 13 4	4 13 9	4 14 0	Revised
Koratagere ..	0 11 8	3 6 11	5 1 9	Do
Gudibanda ..	1 1 1	5 2 4	5 4 9	Do
Chikballapur ..	1 9 7	5 6 0	5 12 6	Original
Dodballapur ..	1 5 9	5 8 2	9 2 7	Do
Goribidnur ..	1 2 9	5 5 3	4 11 7	Now proposed

The dry and wet averages proposed for Goribidnur, while falling short of the original settlement rates in Dodballapur and Chikballapur, are palpably in excess of the revised rates in Maddagiri and Koratagere Taluks. The general superiority of the soil in the tract under report partly accounts for this ; but the more important reason is that the original rates in the two taluks last named had been so low, that no increases at their revision could lift them to a higher than their present level, unless they were made so large as to render them liable to be stigmatised as outrageous and indiscreet, though intrinsically the existing rates are extremely light. The same explanation holds good in respect of the average wet rate. The garden average however falls very low as compared with the other taluks for this reason, that the proportion of the highly assessed tank gardens to other kinds, is smaller in Goribidnur taluk than it is in the case of the others.

32. *Unoccupied assessed waste.*—In the next table, I give information about assessed land still available for cultivation. It calls for no special remarks.

Groups	Dry			Wet			Garden			Total			Remarks
	Acres	Assessment	Average rate	Acres	Assessment	Average rate	Acres	Assessment	Average rate	Acres	Assessment	Average rate	
			Rs. a. p.			Rs. a. p.			Rs. a. p.			Rs. a. p.	
I ...	7,191	6,918	0 15 7	180	962	5 5 6	58	228	3 14 11	7,339	6,108	1 1 8	
II ...	6,126	4,693	0 12 3	54	235	4 5 8	27	75	2 12 5	6,207	5,003	0 12 11	
Total ...	13,277	11,611	0 14 1	234	1,197	5 1 10	85	303	3 9 0	13,546	13,111	0 15 6	

33. *Conclusion.*—I do not see that there is anything in the case of this taluk that is difficult to understand. The statistics embodied in the report speak eloquently of the sympathy with which the old settlement was framed, and I hope there is nothing in the present proposals that can, considering the altered circumstances, create a burden for the raiyat likely to make him feel sore. So many settlement have now been dealt with, and so many controversies regarding principles and their application been examined, that one may be excused for not repeating any of the other commonplaces in settlement, until it becomes necessary to do so. A total increase of Rs. 4,969, or 5 per cent, is to be expected from the taluk under these proposals, brought about by an increase by 18 per cent in the average rate on dry land, of 1 per cent in the wet rate, and by a reduction by 10 per cent in the garden rate.

34. *Limits of increase.*—There is no village in the taluk in which the limits prescribed for a revisional increase, have been exceeded.

35. *Cesses.*—The Local Fund and Irrigation cesses will be separate levies according to the standing orders on the subject.

36. The usual appendices and a coloured map of the taluk are submitted with this report.

37. As it is very desirable to introduce the settlement as early as possible during the current season, I beg that sanction to these proposals may be accorded very early so as to enable me to get the akarbands and the new village accounts prepared for the purpose.

APPENDIX A.

Revenue statement of villages of Goribiduur Taluk in Kolar District from 1880-81 to 1916-17.

Award of Prizes under the Village Improvement Scheme.

No. R. 5122-34—R. M. 5-19-72, DATED 15TH OCTOBER 1920

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. R. 6284-97—L. R. 15-15-254, dated 19th December 1916, sanctioning tentatively for a period of three years the award of prizes to the value of Rs. 50 to the village showing the best result under the Village Improvement Scheme in each Taluk or Sub-Taluk.

Correspondence ending with letter No. C. 3150, dated 14th July 1920, from the Revenue Commissioner in Mysore, stating that he agrees with the majority of the Deputy Commissioners that the system of granting the prizes sanctioned in the order read above, may be continued for some time longer and suggesting that the payment of the rewards may be left for the consideration of the District and Taluk Boards concerned.

Order No. R. 5122-34—R. M. 5-19-72, dated 15th October 1920.

Government are pleased to sanction the continuance for a further period of three years of the present system of granting rewards, as directed in the order read above.

B. RAMASWAMAIYA,
Secy. to Govt., Rev. Dept.

To—The Revenue Commissioner in Mysore.
The Comptroller to Government.
The Secretary, Economic Conference Development Board.
The Registrar of Co-operative Societies in Mysore.
The Inspector-General of Education in Mysore.
The Deputy Commissioners of Districts.

Inspection Reports.

No. R. 5369—Ft. 19-20-2, dated 26th October 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No R 2930—Ft. 140-16-13, dated the 24th August 1918, directing the Conservator of Forests to submit, in future, not only the Inspection Reports of the District Forest Offices but half-yearly Reports of Inspection of Ranges received from the District Forest Officers with his remarks thereon.

2. Letter No. 20, dated the 23rd July 1920, from the Conservator of Forests in Mysore, requesting, for reasons stated, that the existing orders regarding the submission of the half-yearly Inspection Reports received from the District Forest Officers may be revised by extending the application of Government Order No Fl. 366-415—G. F. 263-18-2, dated the 17th July 1919.

Order No R. 5369—Ft. 19-20-2, dated 26th October 1920.

The Conservator of Forests states that as soon as the Inspection Reports are received from the District Forest Officers, they are minutely checked and remarks recorded against the items concerned. This is a review by itself and the reproduction of the remarks and observations in a separate statement for submission to Government along with the Inspection Reports is not of much advantage and Government think that it will be sufficient if only serious omissions observed in the reports and matters requiring their orders are placed before them.

It is therefore directed that in future—

(1) Copies of notes of all inspections conducted by the Conservator himself of District Forest or other Offices, Depots and Koties, should be submitted to the Chief Secretary to Government in the Efficiency Audit Branch, in accordance with Government Order No. 73-122—E. A. G. 261, dated the 8th July 1919 and

(2) In respect of inspections conducted by his subordinate officers, the Conservator should review the reports promptly on their receipt and communicate his remarks to the officers concerned, submitting at the same time an extract of his observations in the case of all serious faults noticed which requires the orders of Government or of a nature which should be brought to the notice of Government.

C. S. BALASUNDARAM IYER.
Chief Secretary to Government.

To—The Conservator of Forests in Mysore.

Exd.—M.V.

No. R. 5203-12—Ex. 53-20-2, dated 15th October 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. C. 190—L. B. dated 30th August 1920, from the Deputy Commissioner, Hassan District, forwarding for early orders a communication from the President, Hassan Municipal Council, requesting that a grant may be made to the Municipality of at least 50 per cent of the rental realised from the toddy shops within the Municipal area.

Order No. R. 5203-12—Ex. 53-20-2, dated 15th October 1920.

The proposal to allot the whole, or a portion of the Excise Revenue accruing in Municipal areas to the Municipalities concerned has been negatived by Government more than once. If the Municipalities wish to derive any income under the head "Excise" it can only be as Registration and Surcharge fees on arrack as in force in Bangalore and Mysore Cities, and not in the shape of shop rental or apportionment of duty. It is open to Town Municipal Councils therefore to submit their proposals for the levy of such fees for the consideration of Government.

B. RAMASWAMAIYA,
Secy. to Govt., Rev. Dept.

To—The Excise Commissioner in Mysore.
The Deputy Commissioner, Hassan District.
The other Deputy Commissioners of Districts
The Revenue Commissioner in Mysore.

Letter No. C. 190—L. B. dated 30th August 1920, from the Deputy Commissioner, Hassan District, forwarding for early orders a communication from the President, Hassan Municipal Council, requesting that a grant may be made to the Municipality of at least 50 per cent of the rental realised from the toddy shops within the Municipal area.

Order No. R. 5203-12—Ex. 53-20-2, dated 15th October 1920.

The proposal to allot the whole, or a portion of the Excise Revenue accruing in Municipal areas to the Municipalities concerned has been negatived by Government more than once. If the Municipalities wish to derive any income under the head "Excise" it can only be as Registration and Surcharge fees on arrack as in force in Bangalore and Mysore Cities, and not in the shape of shop rental or apportionment of duty. It is open to Town Municipal Councils therefore to submit their proposals for the levy of such fees for the consideration of Government.

Levy of Income-tax.

No. 26-28—I. T. 17-20, DATED CAMP MYSORE, 20TH OCTOBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter dated 4th October 1920, from Mr. M. Venkatakrishniah, President, Citizens' Meeting, Mysore City, forwarding, for the consideration of Government, a copy of the proceedings of the aforesaid meeting held on the 28th September last, in connection with the levy of Income-tax.

2. Notes of representations made by a deputation of merchants of Mysore, that waited on the Dewan at Mysore on 11th October 1920 in the same connection.

Order No 26-28—I T. 17-20, dated Camp Mysore, 20th October 1920.

Government have carefully considered the several representations made by the deputation and are pleased to record their replies and observations in regard to each one of them as noted in the memo annexed to this order.

Necessary further instructions based on the above observations will be issued by the Commissioner of Income-tax.

C. S. BALASUNDARAM IYER,
Chief Secretary to Goverment.

To—The Commissioner of Income-tax in Mysore.
The President of the Citizens' Meeting, Mysore City.
PRESS TABLE

MEMO.

Representation.	*Reply.*
1. Accounts are asked for 1919-20. Many traders have not maintained any accounts, while those who have maintained some sort of accounts find it difficult to prepare a correct return.	The return of income for 1919-20 is for the purpose of making a preliminary assessment of the tax for 1920-21. When the final accounts for 1920-21 are available, necessary adjustments in the tax will be made with reference to the actual income for the year. So the Income-tax Department will be satisfied if, in such cases, reasonably approximate accounts are submitted. If there appears to be great disparity between the return submitted and what is believed to be the true income, the Income-tax Collector will send for the parties and if the parties assure the Collector that the return already submitted represents the true income, such assurance will ordinarily be accepted.
2. The form of notice referring to penalties in case of submission of inaccurate returns is unduly severe.	The form of notice follows the wording of the Regulation: in actual working there will be no severity.
3. Interest on one's own capital put in business should be deducted fom profits.	There is no justification for this. If the interest is deducted from the "profits of the business" it will still have to be taxed under "other sources."
4. Members of the family who work in a shop are not given any salaries, but their expenses have to be met. No allowance is also made for expenditure of a charitable nature. To meet all these a rebate of 25 per cent of the profits should be allowed and tax levied only on the balance or the first 2,400 rupees may be excluded from taxation.	This is not possible under the Regulation. The Regulation follows the lines of the British Indian Act, but the rates of tax in Mysore are very much lower than in British India. If rebates are to be allowed it, may be necessary to raise the rates of taxation. The point will however be noted for consideration when the Regulation is next taken up for amendment.

No.26-28—I. T. 17-20, DATED CAMP MYSORE, 20TH OCTOBER 1920.

5. Tax should not be levied on the rental value of the house occupied by the owner.	There is no reason to exempt the income from investments in the shape of house property. The point is, however, noted for consideration when the Regulation is taken up for amendment.
6. It appears that stamp duty at the rate of one Rupee or eight annas will have to be paid in respect of appeals and petitions in regard to Income-tax matters. It should be ordered that no stamp duty need be paid.	This cannot be done as stamp duties are levied by law for purposes of revenue. In prescribing a schedule of rates moderate rates of duty will be fixed
7. The provision regarding a fine of Rs. 10 per day in case returns are not submitted should be held in abeyance for two years.	This is not possible. A penal provision is necessary, but it will be worked only in a considerate manner. It is only in case of persons who are recalcitrant that there will be any necessity to prosecute. Prosecution will be ordered by high officials and only First Class Magistrates will ordinarily try cases.
8. The assessees in Mysore City should not be asked to produce their accounts before the Special Collector in Bangalore.	The Special Collector will spend about half the month at Mysore City where he will have an office. If assessees are called upon by the Special Collector to produce books of accounts he will not require their production in Bangalore but only at Mysore City.
9. There should be a Board of officials to hear appeals from the Commissoner of Income-tax.	This is not necessary. Government is the authority next above the Commissioner and it will be open to assessees to bring up any cases to Government by means of revision petitions.
10. In view of the leavy of Income-tax Octroi duties in Muncipalities should be abolished.	This is a matter for consideration and representation through the Municipal Councils concerned.
11. It is not convenient to close the accounts for the official year. Merchants may be permitted to submit their accounts for the calendar year.	Accounts to be submitted for the "previous year "may be either for the previous official year or for the previous calendar year or for the year beginning and ending with Yugadi or for the Marwari year beginning and ending with Dipavali as may be elected by the assesees. This is allowed by the Regulation.
12. The Special Collector has, in some instances, refused to give extension of time for submission of returns of income. Extension of time may be given up to end of December.	Extension of time up to the end of November will be given.
13. The forms of retrun are very complicated and asessees may be permitted to give their total income in a lumpsum without details.	It will be sufficient if information as to income under main heads is given. All reasonable help to prepare accounts will be given by the Income-tax staff
14. Bad debts should be deducted from profits and tax should be leveied only on income actually received.	Bad debts when actually written off the accounts may be deducted from the profits. This is provided for in the rules. Income accrued, but not actually received, will not be assessed unless it has been credited in the accounts
15. It is a great hardship that the income of Joint-Stock Compaines is taxed at the maximum rate of one anna and that shareholders who are not liable to be taxed at this rate have to obtain refunds. The income of the individual shareholders only should be taxed or if this is not possible at least arrangements may be made to grant refunds on applications sent through the companies concerned	It is not possible to give up the system of taxation at the source in such cases as that would result in a considerable amount of income escaping taxation; but endeavours will be made to have the refund procedure simplified as much as possible. There would be no objection to refund applications being entertained if sent through the Companies concerned.

No. C. 30-31—Edn. 351-19-14, dated, Camp Mysore, 22nd October 1920

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. 6634-5—Edn. 357-19-1, dated 23rd January 1920, directing the bolition of fees in Government Middle Schools with effect from 1st July 1920.

2. Government Order No. 11403-4—Edn. 440-19-1, dated 7th June 1920, sanctioning certain concessions to aided schools on account of the abolition of fees in the Middle School classes therein.

3. Correspondence ending with letter No. C. 8291 of 19-20, dated 5th August 1920, from the Inspector-General of Education, requesting orders of Government regarding the policy to be followed as regards the development of English education in rural parts in future.

Order No. C. 30-31—Edn. 351-19-14, dated, Camp Mysore, 22nd October 1920.

The Inspector-General of Education has brought to the notice of Government the difficulty in regard to the opening of English classes in rural areas on the grant-in-aid system consequent on the abolition of fees in Government and aided schools and recommends that all the existing rural A.-V. schools may be converted into Government institutions and that in future new Government A.-V. schools should be started instead of rural A.-V. schools under the grant-in-aid system.

On a careful consideration of the subject, Government are pleased to direct that no fees be levied in the single teacher rural A.-V. aided classes, that in regard to single teacher aided rural A.-V. schools the whole cost of the teacher may be met by Government as a transitional measure till the programme of development of A.-V. schools in the Educational Memorandum is worked out. The proposal herein approved does not involve any extra cost as the entire expenditure of these aided English classes is already provided for in the budget under 'grant-in-aid' but there will however be a loss in the 'Receipt' side of the budget to the extent of the fee income which would have been collected if fees in the aided rural A.-V. classes were not abolished.

The Inspector-General of Education is requested to report for the information of Government what would be the amount of fee income which has to be reduced from the receipt side of the budget.

Adult Schools.

No. 3447-9—Edn. 150-19-4, dated 2nd October 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Correspondence ending with letter No. 9, dated the 25th August 1920, from the Secretary, Board of Education, submitting for orders of Government the recommendations of the Special Sub-Committee appointed for considering the question of suitable text books for adult schools approved of by the Board in toto and the marginally noted resolution of the Board in regard to the institution of scholarships in these schools.

That no scholarships were necessary in the adult schools.

Order No. 3447-9—Edn. 150-19-4, dated 2nd October 1920.

The recommendations of the Special Sub-Committee are approved and are printed as an appendix to this order. The Sub-Committee appointed for the preparation of text books on the lines set forth may be requested to arrange for the preparation of suitable text books early at a cost not exceeding Rs. 250 per text book.

Orders on all the other questions in connection with the Adult Education will be passed in the Education Memorandum.

P. G. D'SOUZA.

APPENDIX.

THE MYSORE ECONOMIC CONFERENCE.

Education Committee.

Proceedings of the Special Sub-Committee appointed to consider the question of suitable text books for Adults' schools which met at Ringwood at 8 a m. on Saturday the 28th September 1919.

Present.

1. Rajakaryaprasakta Rao Bahadur M. Shama Rao, Esq., M.A.
2. C. S. Balasundaram Iyer, Esq., B.A.
3. M. Ramaswamiah, Esq., B.A.
4. K. Srinarasimhaiya, Esq., M.A., L.T (Secretary).

Two teachers working in the adults' schools of Bangalore, *viz.*, Mr. Singlachar and Mr. Subramanya Sastry were also present.

Absent.

1. Rev. Tomlinson.

The Sub-Committee read para 10 of Mr. Reddy's note* and also Notification D. No. 129, dated 11th May 1917 issued by the Inspector-General of Education and passed the following resolutions unanimously :—

1. The general principles and curricula laid down in the notification referred to above are generally acceptable but to achieve the aims of the principles laid down therein a compilation of at least two series of suitabe text books for use in adults' schools is quite necessary.

* Copy enclosed.

No. 3447-9—Edn. 150-19-4, dated 2nd October 1920.

2. The elementary course should consist of one year and continuation course of two years. Only reading, writing, and arithmetic should be taught in the elementary course. History, geography and civics should be taught in addition in the continuation course.

3. The curricula and text books for the elementary class should be as follows:—

(a) Balabodhe, Part I should be finished in 6 months and for the next 6 months a special reader should be used. The reader may contain selections from the ordinary readers now in use but it should be written on the lines of the Bombay Departmental Readers. It should consist of 100 prose lessons containing elementary ideas of sanitation, hygiene, elementary science, history and geography as well as stories, so that the reader may be interesting and useful to the adults. This reader should also contain 20 easy pieces of poetry and cover about 150 pages of printed matter. The lessons should be suitably illustrated. The teacher should also read to the pupils interesting articles and items of news from the newspapers to stimulate their interest in newspaper reading.

(b) In arithmetic, simple addition and subtraction of 4 digits and multiplication and division by two digits, easy problems bearing on the actual market conditions and mental arithmetic in Indian coinage, weights, measures, acres and guntas, etc., should be taught in the elementary class.

(c) Copy-writing, dictation from the readers of the class.

4. The curricula and text books of the 1st and 2nd year continuation classes should be as follows:—

(a) Second and third readers, compiled on the lines of the first reader detailed in 3 (a) above should be used as reading books in the 1st and 2nd year continuation classes. These three readers will form a graduated series in language as well as matter. The second and third readers should contain about 120 prose lessons and 100 easy stanzas of poetry with suitable illustrations

In these classes, selections from Ramayana, Mahabharatha, Jaimini Bharatha, etc., may be read (as books of non-detailed study) by such pupils as have an inclination and aptitude for it.

Newspapers may be read in the class by the pupils

(b) In arithmetic, compound four rules with easy problems may be taught in the first year and simple fractions, rule of three and simple interest taught in the 2nd year.

(c) Copy-writing, dictation from reading books or other books of general difficulty, manuscript reading; writing letters, bonds, petitions, etc.

(d) As regards history and geography, the curriculum laid down in the notification may be generally followed, but it is quite essential that such text books should be written as would serve the purpose of a teacher's handbook as well as that of a supplementary reader for the pupils. The average adult teacher cannot be expected to select matter suitable to make the lessons in these subjects interesting and profitable to these students. Hence, it is desirable that suitable books dealing with these subjects in broad and simple outlines should be compiled. Text books may be used by the teacher as the bases for his oral lessons or by the pupils as supplementary reading books Civics should also find a place in these books. There should be two books compiled one for each year of the continuation course.

5. Text books to be prepared for the adults' schools may be summarised as follows:—

1. First Reader.
2. Second Reader.
3. Third Reader.
4. First reading book in histories, geographies and civics.
5. Second Reading Book.

6. Writing of these books may be entrusted to competent individuals or a small committee of specialists and their work may be suitably remunerated.

No. 3447-9—Edn. 150-19-4, dated 2nd October 1920.

Notification D. No. 129, dated 11th May 1917.

The following curriculum of studies for Adult Schools is prescribed for adoption from 1st July 1917 :—

Note.—The week will consist of 6 working days of 2 hours or 3 periods each day.

Subject	Elementary Classes		Continuation Classes	
	I Class	II Class	III Class	IV Class
I. Language— (1) Reading and recitation (6 periods).	1. The alphabets and Kannada Balabhode.	1. Selections from Kannada I Reader or II Reader.	1. Selections from Kannada III and V Readers.	1. Selections from Kannada Bharatha, Jaimini Bharatha, Channabasava Purana, etc. (to be read by the pupils and explained by the teacher).
	2. Reading from popular works like Someswara Shataka, Lava Kusara Kalaga, Abhimanyu Kalaga, etc. (to be read by the teacher and explained)	2. Readings from Kannada Bharatha and Ramayana (to be read and explained by the teacher).	2. Readings from Bharata, Ramayana and Bhagavata (to be read by the pupils and explained by the teacher).	
	3. Recitation of select stotras and padyas.	3. Recitation of select stotras and padyas.	3. Recitation of select stotras and padyas.	
(2) Writing and dictation (3 periods).	Copy-writing.	Copy-writing and dictation.	Copy-writing and dictation.	
(3) Composition (2 periods).	Conversation lessons on subjects suitable to grown-up pupils and connected with their trades and occupations, current events, etc.	Easy exercises in composition. Also conversation lessons.	Exercises in Kannada composition and letter writing. Manuscript reading.	Kannada composition and letter writing, advanced Lekhyabodhini.
II. Arithmetic. (3 periods).	Notation and numeration, the four simple rules with simple problems, multiplication tables and tables of money, weights and measures.	Compound addition and subtraction with simple problems. Tables of linear and square and cubic measures.	Compound multiplication and division, G.C.M. and L.C.M., vulgar fractions simple rule of three,	Double rule of three, practice, simple interest, square and cubic measure.
III. Geography. (2 periods).	Explanation of geographical terms, general description of the world, continents, oceans, the British Empire. India and Mysore.	Geography of Mysore.	Outlines of Indian Geography.	Outlines of the Geography of the British Empire.
IV. Science— (2 periods) with easy experiments. Object lessons and nature observation lessons exme under this heading.	Classification into animal, vegetable and mineral kingdoms. Easy selected readings from Prani Sastra (to be read and explained by the teacher).	Selected readings from Prani Sastra and Vanaspati Sastra (ot be read and explained by the teacher).	Elementary Science Primer. Readings from Prani Sastra and Vanaspati Sastra and Khanija Sastra (to be read by the pupils and explained by the teacher).	Advanced Science Reader. Readings from popular books on science, arts and industries (to be read by the pupils and explained by the teacher).
V. History.	..	..	Outlines of Mysore History.	Outlines of Indian History.

No. 3447-9--Edn. 150-19-4, dated 2nd October 1920.

Instructions to Teachers on the Working of Adult Schools.

A curriculum for Adult Schools, if it is to serve its purpose, should be based upon the psychology of the uneducated or partially educated adult pupil. The points of difference to be observed in teaching children and grown-up persons also depend upon the difference of the child mind and the adult uneducated mind. The child mind has an extremely limited stock of knowledge in respect of both concrete objects and abstract ideas. While its affections are partially developed its intellect and volition may be said to be almost wholly undeveloped. On the other hand, the adult uneducated mind which has come under the influences of street, home and trade or workshop education with little or nothing of school education has a decidedly larger stock of knowledge in respect of concrete objects. As regards abstract ideas and relations also, the adult mind is more fully equipped than the child mind. In the matter of affections and will power, it may be said to be, as a rule, much more fully developed while as regards the intellectual faculties the minds of adults are nearly as uncultivated as the minds of children. The common element in both cases is the undeveloped intellect and the ignorance of the three R's as means of acquiring further knowledge. These differences and resemblances must be borne in mind both in framing the curriculum of adult schools and in regulating the methods of teaching to be pursued in these schools.

2. The first principle of all education is to utilize the mental assets of pupils in each stage as means towards further development. The knowledge of concrete objects and abstract ideas possessed by the adult pupil as well as his comparative superiority in affection and will power should be called to aid in developing his intellectual powers, to rouse his imagination, to call forth his powers of reasoning and to cultivate his power of judgment, at the same time teaching him, the three R's in order to make him less dependent on others in his quest of further knowledge. This, in short, is the problem of adult education.

3. In drawing up the accompanying curriculum for adult schools the aim kept in view is to make the subjects of study and the methods of teaching interesting to the adult pupils while at the same time repairing the defects due to the lack of early training and helping further mental development. With this object considerable liberty is given to the teachers in selecting the lessons from the Readers so as to suit the adult pupil. Conversation lessons are included dealing with subjects suitable to grown-up pupils and connected with their trades and occupations or with current events. Both in Kannada Literature and in Elementary Science the reading of selected portions to be read and explained by the teacher will form a valuable method of oral instruction which will precede the study of these subjects by the pupils themselves. It is hoped that with these changes a new life will be imparted to the teaching in adult schools especially if it be supplemented with suitable magic lantern instruction. The special curriculum now proposed will, however, require for its proper working, special text books especially in arithmetic, geography and science and in addition the publication of cheap reading books in all departments of literature, philosophy, science, arts and industries, will render the work of these adult schools easier as well as more effective and more fruitful in its influence upon the masses. An easy examination for adult school pupils at the end of the IV year of study may be instituted, which will serve to test the work of these schools and to make it more definite in its aims. Special adult schools will be started in connection with all existing Normal Schools in order to serve as practising adult schools for the training of teachers for adult school work.

4. As regards the points of difference to be observed in teaching children and grown-up persons and the extent to which they may exercise their discretion to adapt the course of instructions to individual needs, the following points should be borne in mind :—

(1) Lessons treating of simple objects such as will interest children will not necessarily interest grown-up pupils and such lessons should, as a rule, be avoided.

(2) Objects familiar to grown-up persons though somewhat complex in their nature, will interest adult pupils and lessons treating of them should be taught, but in a very simple manner.

(3) As regards the imparting of instruction in ideas also, allowance must be made for the fund of knowledge already possessed by the pupils.

(4) The cultivation of the affections coming as it does under Moral Education, may, as a rule, not be attempted, exceptions being made in the case of pupils showing any abnormal tendencies. In such cases instructions should be given privately and with special reference to each individual case.

(5) Regard should be shown to the adult pupil for his highly developed affections and will power. It should be remembered that the uneducated grown-up man is a highly sensitive being, when his *amour propre* is touched. Discipline appropriate to a juvenile school is out of place in an adult school and no invidious comparison or rude remarks should be made in respect of the less diligent or less intelligent pupils. The teacher should be as polite towards adult pupils as he would be towards the most respectable members of the society to which they belong.

(6) As soon as possible after the alphabets and their combinations are mastered, some easy book held in estimation by the pupils should be placed in their hands to satisfy their craving for higher knowledge. Provided the print is fairly large there is no objection to the pupils being

No. 3447-9—Edn. 150-19-4, dated 2nd October 1920.

encouraged to read them slowly. One or two paragraphs of prose or one or two stanzas of poetry may be read in this way every day, the poetry being learned by rote, if possible. This practice kept up for even half an hour every day will stimulate the enthusiasm of the pupils more than going mechanically through a number of lessons in the ordinary school readers though the latter should not by any means be neglected.

(7) Conversation lessons bearing on the trades or occupations of the pupils or on current events of the day will further quicken the minds of the pupils and render them more willing to learn. Similarly, if the teacher reads out passages from books of literature or science or treating of arts and industries and explains the passages to the pupils, when they are themselves unable to read the desire to learn the art of reading is fostered at the same time that the knowledge and mental development of the pupils is hastened.

(8) In teaching arithmetic, care should be taken at each stage of progress to teach miscellaneous problems based on the calculations necessary for the successful pursuit of the trades or occupations to which the students belong. For this purpose, the adult school master should acquire some knowledge of the details of such trades or occupations, if necessary, from the pupils themselves.

(9) The teaching of Geography, proceeding from the more familiar to the less familiar, can be made the means of imparting more valuable information regarding current events both provincial and international, taken from newspapers. The countries and places to which the current events relate should be shown on the map and should be briefly described with all the more important details of population, customs, religion, production and manufactures, commercial relations, etc.

(10) History need not be taught in detail, but the most salient points of the history of Mysore and of India with their relation to the outside world should be taught. Lessons on forms of Government administration and civic duties should also be given in connection with the same subject.

(11) The habit of asking questions on all manner of useful topics should be inculcated in the pupils and the teacher should take a delight in explaining their doubts or difficulties and in adding to their stock of knowledge. The practice of answering questions orally should be cultivated by the pupils of the elementary adult classes. The continuation class pupils should be taught to write out their answers as well as to give them orally. Home work of some kind should be given to the continuation class pupils at least twice a week to encourage self-study.

(12) Adult pupils should be encouraged to frequent reading rooms and public libraries, as these are "probably the most potent influences for the development of popular education, next to the personality of the teacher and the power of the living voice."

1

Report.

No. 3423-5—A. & E. 79-20-3, DATED 1ST OCTOBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

The Report on the Administration of the Meteorological Department for the year 1919-20, received from the Meteorological Reporter in Mysore to Government with his letter No. 146, dated 1st September 1920.

Order No. 3423-5—A. & E. 79-20-3, dated 1st October 1920.

Recorded.

1. One new Rain Gauge Station was opened during the year at Amritur in the Tumkur District.

2. Upper Air observations were carried on in the Bangalore Observatory and the results were sent to the Meteorological Department, Government of India, who have acknowledged their value.

3. The work of inspection of rain gauges continued to be unsatisfactory. As many as ten stations in the Mysore District, eight in the Kolar District and six in the Kadur District were not inspected during the year under review. On the whole, only 194 or 86 per cent, out of a total number of 226 stations in the State, were inspected as against 200 or 89 per cent in the previous year. The Revenue Commissioner is requested to obtain the explanations of the officers concerned and to impress upon the Revenue Officers the importance of inspecting the several rain gauges within their jurisdiction and to see that they are maintained in proper order.

Government are pleased to note that the work of the Meteorological Department was satisfactory.

Government Order No. 11025-8—I. & C. 261-19-9, dated 17th May 1920, sanctioning the construction of a two-feet Railway line between the quarries near Voblapur and the M. & S. M. Railway for the supply of flux for the Mysore Iron Works.

2. Extract from the Proceedings of the Conference at Benkipur on the 26th July 1920, regarding the quality of ore and flux required and the arrangements to be made for the supply of the same.

3. Correspondence ending with letter No. 273 dated 1st September 1920, from Dr. W. F. Smeeth, Director of Mines and Geology, suggesting certain proposals in connection with the supply of ore and flux and requesting that a sum of about Rs. 50,000 may be allotted for the purpose up to the end of December 1920.

Order No. 3886-90—I. & C. 165-20-10, dated 19th October 1920.

The question as to what arrangements should be made in connection with the supply of ore and flux for the Iron Works, has been discussed at great length at Benkipur with all the officers concerned and the proposals sent up by Dr. Smeeth have also been carefully considered. Government are therefore pleased to direct that the following arrangements be adhered to for the purpose :—

I. Supply of Ore.—Dr. Smeeth is of opinion that it will not be possible for him to complete the construction of the Aerial Ropeway, etc., at Kemmangundi and supply ore from that place till the beginning of January 1922. But as the Company's officers are of opinion that the blast furnace and wood distillation plant will be ready for the manufacture of iron by October 1921, it is necessary that arrangements should be made to obtain ore from some other place temporarily and keep in stock a quantity sufficient to last for about six months so that the manufacture of iron may not be delayed on this account.

The proposals of Dr. Smeeth therefore to get the quantity of ore required temporarily from Shankargudda and take the same down the Workington Tram line are approved. If, as suggested, it is possible to get a regular supply every year during the monsoon season from this source, arrangements may be made to get the same accordingly.

As it is reported that a quantity of silicious ore will be required for being mixed with the ore found at Kemmangundi, to get a suitable mixture for the furnace, necessary arrangements may also be made to get this kind of ore from some place near Benkipur.

II. Supply of Flux.—The operations at Voblapur may be continued till a quantity of about 5,000 tons of limestone required for the 1st year of the operation period is secured and steps taken to obtain thereafter the limestone required, from some quarries near the works as it is stated that a high grade of lime is not required for the furnace. The question of developing the Voblapur quarries as an independent commercial proposition, may be taken up separately.

No action need therefore be taken with regard to the construction of the two-feet Railway line referred to in the Government order read above without further orders of Government. The road metal already collected may be laid and rolled in on the cart track to the Voblapur quarries as suggested. Arrangements should also be made to transport the 5,000 tons of flux referred to above by means of carts, etc., to the rail head if required.

No. 3386-90—I. & C. 165-20-10, DATED 19TH OCTOBER 1920.

Necessary investigations may be made with regard to the limestones available near Choradi, Shankargudda and Channagiri and the source from which a steady supply of same could be drawn decided upon early.

III. Facilities for opening deposits, transport, etc.—As it is reported that some of the deposits of ore and limestone are found on lands held on leases by the Workington Iron and Steel Company, the Superintendent of that company may be requested to afford necessary facilities for examining and opening up the deposits there. The arrangements proposed by that company for transporting the ore and flux to Benkipur along their line may be intimated to Government for approval in the first instance. Separate orders will issue with regard to the proposal about the laying of a third rail between Benkipur and Shimoga to enable our trains to pass forward and backward between our system and the system of the Workington Iron and Steel Company.

IV. Funds.—Government have already sanctioned a sum of Rs. 20,000 for the restoration and repairs of the road between Lingadahalli and Kemmangundi and a further amount of Rs. 30,000 is now sanctioned for the operations referred to above. The amounts may be drawn upon only when absolutely required and the Comptroller is requested to supply funds to Dr. Smeeth up to this limit, on his requisitions at the treasuries specified and get proper accounts from him for expenses incurred.

A statement of expenditure incurred on the various items up to the end of December 1920 should also be sent up by Dr. Smeeth to Government by about the 15th January 1921.

No. C. 58-60—I. & C. 14-19-28, DATED 6TH OCTOBER 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. C. 58-60—I. & C. 14-19-28, dated 6th October 1919.

In the Chambers of the First Member of Council on 6th August 1919, the following Officers being present.

Financial Secretary, Secretary, Education and Agriculture, Revenue Secretary, Conservator of Forests, and the Director in charge of Sandalwood Oil Factories.

The Director in charge of the Sandalwood Oil Factories in Mysore having sought the definite orders of Government in regard to certain questions relating to the supply of sandalwood to the Sandalwood Oil Factories an informal conference was held to discuss and settle the points raised. In pursuance thereof Government are pleased to approve of the following arrangements for (1) the supply of sandalwood by the Forest Department to the Sandalwood Oil Factories and (2) the adjustment of its cost:—

(1) The Forest Department will deliver 1,500 tons of sandalwood to the Sandalwood Oil Factories every year and credit will be given to the Forest Department for the value thereof, whether or not the Sandalwood Oil Factories use up this quantity in any particular year.

(2) The price of sandalwood supplied to the Sandalwood Oil Factories by the Forest Department every calendar year will be calculated at the rate realised per ton of wood of the same class by the Coorg Government at their auction sales during the month of November of the preceding year.

N. B.—The sandalwood supplied up to the 31st December 1919 will, however, be paid for at the rates realised in the Coorg auction sales of April 1919.

(3) Bills will be presented by the Forest Department on weighment of deliveries at the Factories driage at the rate of 1·8 per cent on the quantity of sandalwood so delivered being allowed to the Forest Department calculation being made at the end of every half-year.

N. B.— The rate will be liable to revision every three years.

(4) The sandalwood will as usual be prepared at the kotis and retained there till required for delivery by the Sandalwood Oil Factories but to prevent difficulties in storing of stocks due to want of space in the kotis the storage accommodation in the Mysore Factory will be extended from 200 to 400 tons of wood.

(5) The 900 and odd tons of sandalwood reported to be still remaining with the Forest Department will be dealt with as shown below:—

(*a*) The Director, Sandalwood Oil Factories will give credit to the Forest Department for the value of 300 tons in the accounts for 1918-19 similar credit being given for another 200 tons in the accounts for 1919-20.

(*b*) The remaining 400 and odd tons (Chiltas) may be sold during 1919-20, the date of the sale being deferred till November 1919 if by then the Director of Sandalwood Oil Factories shall have decided that he will not require the same for distillation purposes.

(6) In order to ensure the factories taking up a steady quantity of wood every month and the price being adjusted more or less in accordance with market conditions the Sandalwood Oil Factories will take up sandalwood of the value of not less than half the usual yearly requirements during the first half of the official year and the balance during the second half of the same year.

2. The Director in charge of the Sandalwood Oil Factories is requested to take steps to give effect to this arrangement at once in consultation with the Conservator of

No. C. 58-60—I. & C. 14-19-28, DATED 6TH OCTOBER 1919.

Forests. The Conservator of Forests is requested to make necessary arrangements to watch the Coorg auction sales and to obtain accurate information as to the rates realised per ton of each kind of sandalwood sold. The Director, in charge of Sandalwood Oil Factories is requested to send up proposals for extending the storage shed in the Mysore Factory for the sanction of Government at an early date.

P. G. D'SOUZA,
Secy. to Govt., Depts. of Edn. & Agri.

To—The Director of Sandalwood Oil Factories in Mysore.
The Conservator of Forests in Mysore.
The Comptroller, Mysore Government, through Financial Secretariat.

READ—

Government Order No 6296-7—I. & C. 8-1825, dated 9th January 1919, directing a modification in the scale of the establishment of the Registrar of Co-operative Societies sanctioned in the order of 18th June 1918, and passing orders on the allocation of staff under the scale as thus modified.

2. Letter No. 1019—C. S., dated 13th August 1920, from the Registrar of Co-operative Societies proposing for sanction the marginally noted re-adjustment of hands in the sanctioned scale of the clerical establishment of his department for reasons stated therein.

Present Scale		Proposed Scale		Increase	Decrease
Pay	No.	Pay	No.		
75-5-100	1	75-5-100	1	..	..
65	2	65	2	..	..
60	1	60	1	..	..
50	1	50	4	150	..
45	5	45	5	..	..
40	7	40	4	..	120
30	7	30	6	..	30

Order No. C. 3-4—E. C. 24-20-16, dated 22nd October 1920.

The proposals do not involve any extra cost as it is proposed to reduce one of the hands in the Registrar's office with a view to raise the salaries of the others so as to secure a better class of men.

2. Government are pleased to sanction the proposal of the Registrar. It is understood that the reduction will be permanent and there will be no application later on for any increase.

3. The Registrar is also requested to submit for the approval of Government his proposals for the allocation of hands under the re-adjustment now sanctioned.

Letter No. R. 1698, dated 17th April 1920, from the Comptroller to Government, submitting proposals for the recruitment of men to the clerical service of his office.

(*Vide* Comptroller's letter.)

Order No. Fl. 2667—G. F. 13-19-125, dated the 4th October 1920.

The Comptroller's proposals are approved.

2. Matriculates and S.S.L.C.'s who have not yet passed the Clerical Service Examination (Higher Grade) or the Local Service Accounts Higher or Public Works Entrance should be required to sit for the Office Competitive Examination and only those that pass this competitive test should be continued. Attention is in this connection invited to para 2 of Government Order No. F. 1341—G. F. 27-18-96, dated 20th August 1919.

M. N. KRISHNA RAO,
Financial Secretary to Govt.

To—The Comptroller to Government.

Exd.—M.V.

ANNEXURE.

Letter No. R. 1698, dated 16th April 1920, from the Comptroller to Government, to the Secretary to Government, Financial Department.

I have the honor to submit herewith my proposals for the recruitment of men to the clerical service of this office called for in para 7 of Government Order No. 2731—G. F. 92-17-11, dated 10th December 1918.

2. Under the rules for recruitment and promotion in this office as they now stand the following are the service and departmental examinations to be passed by the officials of this office possessing the prescribed minimum educational qualifications during the several stages of their service :—

(1) *Recruitment to Clerical Service.*—Clerical Service Examination under the Clerkship rules.

(2) *Confirmation in Clerical Service.*—Local Service Accounts Higher or Local Service Public Works Entrance Examination.

(3) *Accountant's Grades.*—Departmental Examination for promotion to the grade of Accountants.

(4) *Superintendent's Grades.*—Departmental Examination for the Subordinate Account Service for promotion and confirmation in the grade of Superintendents.

It has been found extremely difficult to find the required number of men for recruitment to clerical service confining the selection to those who have passed the Clerical Service Examination under the Clerkship rules, and it is therefore necessary as proposed by Mr. Datta in para 85 of his note on the re-organization of the Comptroller's Office to hold a Competitive Examination to secure a larger number. Those who have passed the Accounts Higher or the Public Works Entrance Examination, who under the rules now in force are eligible for confirmation in the clerical grades need not be required to pass the Clerical Service Examination under the Clerkship rules or the Competitive Examination now proposed to be held. I would recommend that those who have passed the Mysore University Entrance Examination or the Madras University Intermediate Examination be also exempted from passing the examinations prescribed for clerical service. If this proposal is approved by Government the following will be eligible for recruitment to the clerical service of this office :—

(1) Those who have passed the Matriculation Examination or have obtained S.S.L. Certificates and have passed the Clerical Service Examination (Higher Grade) under the Clerkship rules.

No. FL. 2667—G. F. 13-19-125, DATED 4TH OCTOBER 1920.

(2) Those who have passed the Matriculation Examination or have obtained S.S.L. Certificates and have passed the Competitive Examination held by this office.

(3) Those who have passed the Local Service Accounts Higher or the Public Works Entrance Examination.

(4) Those who have passed the Mysore University Entrance Examination or the Madras University Intermediate Examination or other higher examinations of these Universities.

(5) Those who have passed any two of the Commercial Examinations (Intermediate grade) prescribed in Government Order No. 1811-1860—E A.G. 307, dated 16th December 1918.

Those possessing the qualifications mentioned in (3) and (5) above will also be eligible for confirmation in the clerical grades.

Those satisfying the conditions specified in (1), (2) and (4) above will be eligible for confirmation in the clerical grades only if they pass the Local Service Accounts Higher or the Public Works Entrance Examination.

The Competitive Examination to be held by this office may be in the following subjects:—

(1) English Composition	..	100 marks.
(2) Hand Writing and Dictation	...	100 „
(3) Arithmetic	...	100 „

No one to be considered to have passed the examination unless he obtains 40 per cent of the maximum number of marks in each of the above subjects and 50 per cent in the aggregate. The required number for recruitment to the clerical service to be selected from among the successful candidates in order of merit.

The examination to be held once a year or at longer intervals as the Comptroller may deem expedient or necessary.

No. Fl. 2872-921—G. F. 89-20-2, dated 23rd October 1920.

Read—

Audit and Appropriation Report on the accounts of the Government for the year 1918-19.

Order No. Fl. 2872-921—G. F. 89-20-2, dated 23rd October 1920.

The report due in December 1919 was published in the Gazette on 5th August 1920. The Comptroller is requested to make necessary arrangements to prevent such delays in future.

2. Paragraph 30 of the report shows in detail the excesses over the budget grant that have occurred under each minor head and how far they are authorised by re-appropriation of grants or additional grants subsequently sanctioned and what items remain yet to be sanctioned. Government observe that almost under every head the sanctioned grants have been allowed to be exceeded and that sufficient attention is not being paid by disbursing officers to the rules contained in Articles 311 to 317 of the Mysore Account Code. The Comptroller is requested to report what measures he proposes to take to ensure stricter attention being paid to the rules in the matter by spending departments and how he proposes to keep effective watch over the expenditure and send timely warnings to the officers concerned. This report should be submitted to Government before the 15th November next.

3. The Comptroller is authorised to admit finally in audit the excesses reported by him in paragraph 30.

4. *Objections—Civil.*—It is very unsatisfactory that there are increases under all classes of objections, as compared with the previous year. As large an amount as 4 lakhs paid to Military Officers and men on the Field is awaiting clearance. The Chief Commandant is requested to state when he will be able to take steps to have the outstanding objections removed and the amounts under objection finally admitted in audit by the Comptroller.

There is no marked reduction either in the number or in the amount of previous years' objections, while there is an increase both in the number and in the amount of objections relating to 1918-19. Steps should be taken for the prompt adjustment of the items by the Deputy Commissioners of Bangalore, Kolar and Mysore Districts where the outstandings are heavy. A report should be submitted by these officers, before 31st December 1920, of the steps taken for the adjustment of the items now outstanding and the progress of the adjustments made. The Comptroller is also requested to clear the outstandings as far as possible before December next in communication with the officers concerned.

5. *Objections—Public Works.*—There is a general decrease in the number and amount of objectionable items except under "excess over estimate." The Chief Engineer is requested to issue needful instructions with a view to put a stop to the irregularity brought to notice in connection with Irrigation Works which are reported to have contributed mostly to excess over estimate.

6. *Objections—Electrical Works.*—The Chief Electrical Engineer is requested to take prompt action to reduce the objectionable items on the books of the department. Strict orders should be issued to all concerned to avoid outlay on unsanctioned works and on works for which no estimates or appropriations have been sanctioned. The Comptroller observes in para 74 that the report of verification of stock and tools and plant of the Chief Electrical Engineer as on 30th June 1919 had not been received by him till the date of the report, *viz.*, 1st June 1920. This is unsatisfactory especially in an office where the quantities of stock dealt are large. The Chief Electrical Engineer is requested to state if stock was taken during the year and if so to furnish a report of the examination of stock for audit.

7. *Objections—Railways.*—The attention of the Agent is invited to paragraph 75 of the report. He is requested to take necessary action to prevent the objections noticed therein by the Comptroller.

Industries and Commerce Department.—The amount under objection for want of bills is very heavy in this department. As for every payment in settlement of a claim there should be a bill, it is not understood why the bills obtained at the time of payment should not be sent up to the Audit Office. The Comptroller is requested to address the officers concerned with a view to the removal of amounts under objection and to submit a special report before 31st December 1920, showing the progress of adjustment of outstandings. The Director of Industries and Commerce should issue needful instructions for prompt attention being paid to audit requirements and for the items now under objection being regularised as early as practicable.

8. *Rush of Expenditure.*—The attention of the Chief Engineer, the Revenue Commissioner, the Agent for Railways and the Conservator of Forests is invited to the remarks of the Comptroller in paragraph 90 of the report for necessary action to prevent rush of expenditure.

9. *Financial Irregularities.*—The instances given of these under the several departments indicate a lack of proper supervision and control over monetary transactions by departmental officers and inattention to the standing orders and rules in regard to cash and stores. Government desire to impress on all Heads of Departments and officers the need for very strict watch over the cash and stores transactions of their departments for preventing irregularities of the kind reported by the Comptroller.

M. N. KRISHNA RAO,
Financial Secretary to Government.

To—The Comptroller, Mysore Government.
The Heads of Departments.
The Deputy Commissioners of Districts.

S.O.G.

Capital and Revenue Accounts of Kunigal Stud Farm.

No. Fl. C. 75-8—G.F. 91-18-17, DATED 20TH OCTOBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. Fl. C. 75-8—G. F. 91-18-17, dated Camp Mysore, 20th October 1920.

The account rules prescribed for the management of the Mysore Government Stud Farm at Kunigal do not provide for the maintenance of the Capital and Revenue Accounts of the Farm. With a view to ascertain the true financial results of the Farm, Government desire that Capital and Revenue Accounts should be annually prepared and maintained by the Comptroller in consultation with the Chief Commandant. The following subsidiary instructions are issued for the guidance of the officers concerned :—

(1) The value of the buildings occupied by the Farm need not be calculated and no interest on their capital value need be charged to the Revenue Account.

(2) Land Revenue of the lands occupied by the Farm should be charged for in the *pro forma* accounts.

(3) As regards the animals lent to the Palace, they may be shown as the property of the Farm but lent to the Palace to relieve the Farm of the cost of their maintenance till they are returned to the Farm. When the animals are given away to the Palace outright, their price will be charged to the Palace.

Similarly when Palace animals are transferred to the Farm, their transfer will be shown as a loan, if of a temporary nature, or they should be paid for, except when they are presented to the Farm.

(4) As the Kunigal Farm is an adjunct of the Military Department its transactions will in future be shown in the budget and accounts under 31—Army instead of under 28—Agriculture.

(5) The Comptroller will arrange for annual local audit of the Farm Accounts by the local audit staff of his office.

Compensation Leave.

No. Fl .C. 91-140—S. & A. 129-20-1, DATED 23RD OCTOBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. Fl. C. 91-140—S. & A. 129-20-1, dated camp Mysore, 23rd October 1920.

At present several officers and officials have to attend office on public authorised holidays and have also to be on duty during Dasara and Christmas Holidays, without being permitted to avail themselves of the same. Government consider it necessary that some consideration should be shown to such officers and officials, who are denied the use of holidays on account of the exigencies of the public service. They are accordingly pleased to direct that a Government servant, who is called upon to attend office on a public authorised holiday, except as a punishment, or who is refused permission to utilise the Dasara or Christmas holidays and is required to attend office and to be on duty during those holidays, may be granted another day or equivalent number of days in lieu thereof when opportunity offers.

2. In the grant of such compensation leave, the following rules should be observed:—

(1) Such holidays may not be taken by any Government servant without the previous permission of the authority who is competent to grant him casual leave. An officer who is allowed to avail himself of casual leave without obtaining the previous permission of higher authority should intimate his intention of taking such a holiday to the authority to whom he makes similar intimations in respect of casual leave.

(2) Not more than ten such holidays in all may be taken in an official year and no such holidays shall be taken after the expiry of six months from the public holiday for which it is substituted. It will, however, be within the discretion of the head of an office to call on the subordinate affected to take such holiday on any date within the six months which the head of the office finds to be convenient.

(3) Not more than seven such holidays may be accumulated and a lower number may be fixed in his discretion by the head of the office.

(4) Such holidays may be combined with casual leave or other authorised holidays, provided that the total period of absence from duty shall not exceed ten days.

(5) Gazetted officers, who are subordinates in an office, may be granted such holidays under the foregoing rules. In the case of a gazetted officer in independent charge of an office, the same rules will apply, but if the permission of any authority to take a holiday is necessary under rule 1 above, such authority should, before granting the required permission, satisfy himself that, owing to the exigencies of the public service, the said gazetted officers was unable to avail himself of the public holiday in lieu of which he applies for permission to take a holiday under para 1 above.

These rules will have effect from 1st October 1920 and will be incorporated in the Mysore Service Regulations (5th Edition) under print.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. Fl. C. 160-209—S. & A. 130-20-1, dated, Camp Mysore, 26th October 1920.

Government are pleased to sanction the revision of Leave Regulations as in the appendix to this order.

2. The broad features of the changes made are the following:—

(1) Removal of restrictions on taking short and long leave either by itself or in combination.

(2) Simplification of long leave rules by the elimination of the existing three kinds, *viz.*, furlough, leave on medical certificate, and leave on private affairs, and the substitution of only one kind of leave, namely, furlough.

(3) Permission to officers coming under the Indian Service rules to take furlough for five years whether with or without medical certificate instead of furlough for two years and leave on medical certificate for three years.

(4) Accumulation of privilege leave up to 4 months.

(5) Permission to take in certain cases long leave in anticipation of earning it.

(6) Removal of restrictions imposed on the retirement of officers at the end of leave taken by them and the grant within certain limits of leave to officers who have passed the age of 55 years.

(7) Permission to combine privilege leave with vacation in the case of officers of vacation departments.

3. The new rules will have effect from 1st October 1920.

GOVERNMENT OF H. H. THE MAHARAJA OF MYSORE,
GENERAL AND REVENUE SECRETARIAT,
Dated Bangalore, 8th October 1920.

CIRCULAR

Several instances have come to the notice of Government in which bills on account of expenditure incurred, in excess of the sanctioned scale, on the occasion of Jatras, car festivals and other Utsavas have been submitted to Government for sanction, after the occasion was over. Government regret to observe that such applications are on the increase notwithstanding that it was pointed out in Circular No. 4023-30—Muz. 621-19-3, dated 18th May 1920, that such a procedure was highly irregular and should be put a stop to.

2. In cases where extra expenditure over and above the sanctioned allotment is unavoidable, and has to be incurred, an estimate of the expenditure should be prepared in time, *i.e.*, as soon as it is anticipated and submitted to Government for sanction before the event actually comes off. Excess expenditure incurred without the previous sanction of Government will not in future be admitted.

By Order,
T. E. JAYARAMA AIYAR,

Read—

G. O. No. R. S. 2526-34—Ry. F. G. 209-18-19, dated 15th March 1919, sanctioning the rules for the recruitment and training of Permanent Way Staff.

2. G. O. No. R. S. 375-83—Ry. F. 40-E-19-20, dated 27th August 1919, confirming the selection of four candidates for training as Permanent Way Inspectors for the year and modifying Rule 5 relating to the first year's course, etc.

3. Railway Secretary's Note No. 152, dated 21st July 1920, soliciting orders in the matter of the selection of the candidates as per recommendations made by the committee appointed for the purpose.

Order No. 1056-63—Ry. F. 40 E-20-21, dated 27th October 1920.

Government direct that the following two candidates be selected for training as Permanent Way Inspectors :—

1. M. S. Narasimhachar.
2. S. G. Varadaraja Mudaliar.

2. Necessary provision for meeting the stipends to be paid to the students in accordance with G. O. dated 15th March 1919, read above will be made in the Authorization Rolls for 1920-21.

3. As the classes for these students have begun from July 1920, Government further direct that the above candidates be admitted to the Mechanical Engineering School immediately.

Revised Estimate rfoCoac hing and Goods.

No. R. S. 979-81—Ry. F. 3 O. L.-20-21, DATED 23RD OCTOBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

RAILWAY DEPARTMENT.

READ—

G.O. No. R. S. 3962-64—Ry. F. 3 O.L.-16-17, dated 29th June 1917, sanctioning the Revised Estimate amounting to Rs 9,50,900 for the rolling stock required for the efficient working of the Mysore-Nanjangud and Birur-Shimoga Branch Lines and for supplementing the stock on the Mysore–Arsikere Railway, against this, the coaching and goods stock work up to Rs. 7,50,900, as shewn in the margin, excluding the cost of locomotives and cranes.

a. Coaching stock, equivalent to 29 units costing Rs. 2,81,400.
b. Goods stock Rs. 4,69,500.

Correspondence ending with Railway Secretary's Note No. 68, dated the 17th August 1920, soliciting sanction to the Revised Estimate amounting to Rs. 9,39,114 for coaching and goods stock only.

Order No. R.S. 979-81—Ry. F. 3 O. L.-20-21, dated 23rd October 1920.

The Railway Secretary represented that the underframes for the coaching stock were supplied by Messrs. Burn & Co., and that cost of building bodies for these was based on the provision made in the original estimate of the M. A. Railway coaches, and as subsequently the provision for these items of local expenditure in the M. A. Railway estimates was revised, the provision for this local expenditure has been, therefore, suitably revised in the present estimate to meet the increased cost of labour and materials.

2. He further added that, with the approval of the Government, goods stock that was ready with Messrs. Burn & Co., was purchased under the provision of Rs. 4,69,500 in the sanctioned estimate, that there was no excess under his item and that all the excess was mainly on the local expenditure of the coaching stock portion only.

3. The Railway Secretary then submitted the accompanying Revised Estimate amounting to Rs. 9,39,114 with an excess of Rs. 1,88,214 over the sanctioned amount for the coaching and goods stock only for Metre Gauge Branch Lines of the Mysore Railways. He also pointed out that Revised Estimates for the locomotives and cranes will be submitted on receipt of further information from M. &. S. M. concerning same.

4. In the circumstances explained above, Government are pleased to sanction the Revised Estimate referred to in para 3 *supra*.

D. G. DANI,
Secy. for Rys., Govt. of Mysore.

To—The Secretary to Government, Financial Department
The Agent, Mysore Railways.
The Auditor, Mysore Railways.

INDEX FOR OCTOBER 1920.

PART I.

A

Administration Report—

Records the — of the Meteorological Department for the year 1919-20. 3423-5—A. & E. 79-20-3, dated 1st October 1920.

Adult Schools—

Passes orders in regard to the preparation of suitable text-books for —. 3447-9—Edn. 150-19-4, dated 2nd October 1920.

Audit and Appropriation Report —

Reviews the — on the accounts of Government for 1918-19. Fl. 2872-921—G. F. 89-20-2, dated 23rd October 1920.

Award of Prizes—

Sanctions the continuance of the system of — under the Village Improvement Scheme for a further period of three years. 5122-34—R. M. 5-19-72, dated 15th October 1920.

B

Breeding of good Milch Cows —

Dissolves the Milch Cattle Improvement Committee, and transfers, etc., the expert on Animal Husbandry the conduct of the experiment in regard to the —. G. 8301-7—Mily. 249-19, dated 21st October 1920.

Budget Estimates—

Preparation of a certain form for entering the — of the expenditure of the Malnad Improvement Committee 8455-60—San. 36-20-1, dated 25th October 1920.

C

Capital and Revenue Accounts—

Issues subsidiary instructions for the guidance of officers for the maintenance of the — of the Kunigal Stud Farm. Fl. 75-8—G. F. 91-18-7, dated 20th October 1920.

Capital Works, Sub-Division—

See Proposition Statement. 1039-42—Ry. F. 110 E.-20-21, dated 29th October 1920.

Cattle Improvement Committee—

See Breeding of good Milch Cows. G. 8301-7—Mily. 249-19, dated 21st October 1920.

Cattle Mortality—

Records the statement of — in the Mysore State for the year ending 30th June 1920. 358-67—Stt. 15-20-4, dated 23rd October 1920.

Chamraj Urs, Lt.-Colonel B.—

See Infantry Regiments. G. 8783-93—Mily. 398-16-10, dated 30th October 1920.

Clerical Establishment—

Sanctions the readjustment of hands in the sanctioned scale of the — of the Co-operative Department. C. 3-4—E. C. 24-20-16, dated 22nd October 1920.

Clerical Service —

Sanctions the Comptroller's proposal for the recruitment of men to the — of his office. Fl. 2667—G. F. 13-19-125, dated 4th October 1920.

Coaching and Goods Stock—

Sanctions the revised estimate for — for Metre Gauge Branch Lines. 979-81—Ry. F. 3 O. L. 20-21, dated 23rd October 1920.

Compensation Leave—

Lays down certain rules for the grant of — Fl. C. 91-140—S. & A. 129-20-1, dated 23rd October 1920.

Consolidated Allowance —

Directs that the — be treated as pay for purposes of travelling allowance rules. Fl. C. 1-50—S. & A. 23-20, dated Camp Mysore, 17th October 1920.

D

Deputations—

Prescribing date and details for submission of proposals in regard to Departmental —. G. 7350-410—G. M. 100-20-1, dated 2nd October 1920.

Deputy Registrar, Chief Court of Mysore.

Removes the post of — from the cadre of Munsiffs and makes it a graded appointment on Rs. 200-10—1-300. G. 7300-1—Ct. 51-19-6, dated 2nd October 1920.

E

Excess Expenditure—

Directs that an estimate for — during jatras, car festivals, etc, be prepared as soon as anticipated and submitted to Government for sanction before the event actually comes off. 1312-9—Muz. 746-19-8, dated 8th October 1920.

Excise Revenue—

Directs that if Municipalities wish to derive any — it can only be as Registration and sur-charge fees on arrack as in force in Bangalore and Mysore Cities and permits the Town Municipal Councils to send up proposals for the levy of such fees. 5203-12—Ex. 53-20-2, dated 15th October 1920.

Expert on Animal Husbandry—

See Breeding of good Milch Cows. G. 8301-7—Mily. 249-19, dated 21st October 1920.

F
